50 CENTS PER MONTH

TIDE OF WAR TURNS FOR ALLIES

Lord Kitchener Says Everywhere Affairs Are Favorable for Their Triumph

FORESEES LONG STRUGGLE; EULOGIZES GEN. FRENCH

Italy Calls Reservists to Report by Sept. 28—Action May Be for Mobilization

LONDON, Sept. 17.—Lord Kitchener told the House of Lords tonight that the tide of war had turned everywhere in the Anglo-Franco-Russian allies' favor. The struggle may be a long one, but the British had good reason to look forward in quiet contentment to such an end as they would have chosen.

England has in the field, he said, more than six divisions of troops, not counting two cavalry divisions. He concluded with a eulogy of General Sir John French, who is splendidly meeting every difficulty and proving his worth as a soldier.

"Thanks to his superb leadership," said Kitchener of General French, "the British have been able at all times to put up a fight that has thrown terror into the enemy. Nothing has been wanting. Every move has shown that General French knew what was coming. He so distributed his forces that the strongest of the German blows spent their weight without bringing the disaster planned by their authors. Our troops met the hard campaign with good heart and are now awaiting a general forward movement. When that word comes, Great Britain can depend on its soldiers to give an account of themselves of which Englishmen may be proud."

Dum-Dum Bullet Charge
While Great Britain does not intend to ask America to investigate the dum-dum bullet charges, she has no objection to such inquiry, it was stated today.

Italy Calls Reservists
All the Italian reservists in France have been ordered to report for duty on September 28, according to the Daily Telegraph. If this is true, it means that Italy is mobilizing for participation in the war.

If Italy wants Austria's Italian provinces, she must expect to take them by force, was the Russian intimation conveyed to the Rome government today. It was pointed out to Rome that the Italian government could hardly expect such a prize as the price of neutrality.

Germans Quit Brussels for France
OSTEND, Sept. 17.—The German troops which have been holding Brussels are hastening into France today. Their places have been taken by the Landstrum and naval reservists.

Italians Move for War
ROME, Sept. 17.—Strong military forces were ready in all Italian cities today to quell anti-neutrality demonstrations. A concerted movement is developing to force Italy to join the allies. Rumors prevail that cabinet changes are imminent which will accomplish this end.

Italian newspapers claim that the military attaché of the Berlin embassy in Italy has returned home as a result of criticisms of Germany and Italy's refusal to join the Teutons in their war on the allies.

DEMOCRATIC STATE CONVENTION OPENS

HARTFORD, Conn., Sept. 17.—With strong indications that Bryan F. Mahan of New London would be favored over Governor Simeon E. Baldwin for the nomination for United States senator, the Democratic State Convention opened here today. Mahan's supporters declare that he will be a two to one choice over the state executive.

Baldwin's supporters admit that the nomination of their man is doubtful inasmuch as he has persistently refused to do any active work in his own behalf. The preliminary campaigning of his friends has been badly disorganized.

PLANS REFORMS TO AID PAROLED MEN

ST. PAUL, Minn., Sept. 17.—Reforms affecting paroled prisoners will be proposed by Charles E. Vassaly, chairman of the Minnesota State Board of Control, before the sessions of the National Prison Congress, to be held here October 4, 5, 6 and 7.

One of the proposed changes will be recommendation of a law that will prohibit any person from telling the employer of a paroled man that the employee has served a prison sentence. Another proposed reform is the establishment of a system destroying institutional records of a man who has served a good and useful life, after a certain period after he has been turned out of the prison.

President Respectfully Declines to Intervene

WASHINGTON, Sept. 17.—For mal notice was given to the world yesterday by President Wilson that the United States at this time can not pass judgment upon or take any part in controversies between the warring European nations over alleged violations of the rules of civilized warfare and humanity. He said settlement of these questions would have to wait until the end of the war, which he prayed might be very soon.

The President announced the position of the American Government, first in an address to the commission sent to him by the King of Belgium to protest against alleged atrocities committed by the German army. Later he sent a cablegram along similar lines to the Emperor of Germany, replying to the latter's recent protest that the allies were using dum-dum bullets.

CARDEN'S WORDS APOLOGIZED FOR

WASHINGTON, Sept. 17.—The British government, through Ambassador Sir Spring-Rice, apologized today for the utterances of Sir Lionel Carden, the retiring English ambassador to Mexico, in regard to America's withdrawal of troops from Vera Cruz. The administration had characterized Carden's criticism as the "outburst of a disgruntled diplomat."

A prominent diplomat said he would not be surprised if France withdrew her representative from Mexico City because of the treatment accorded nuns and monks by the Constitutionalists.

WAR ON RATS NOW ON IN PHILADELPHIA

PHILADELPHIA, Sept. 17.—Philadelphia has declared war on rats. Every rodent has a price on its head. Dr. Richard H. Harte, director of health, is paying two cents per head for dead rats and five cents for live ones.

Two reasons underlie the city's campaign against the rodents. The first is that the rats of Philadelphia destroy from \$2 to \$5 per year each in property and provisions. The estimated loss is put at \$1,000,000 annually. The second reason is that the city health authorities are taking every precaution against the dreaded bubonic plague, a disease spread by rats.

HEROES OF ALAMO WILL BE HONORED

SAN ANTONIO, Texas, Sept. 17.—The heroes of the Alamo, whose hopeless resistance against Santa Ana's army illuminates some of the brightest pages in Texas history, are at last to have a great monument erected to their memory. The Alamo Heroes' Monument Association has been organized here and is collecting funds for the construction of a beautiful, appropriate pile.

Auxiliary councils are being formed in every Texas county and thousands of dollars have been subscribed. The monument will be erected in San Antonio, of course, and probably on the grounds of the present Alamo.

ARBISO HEARING AGAIN CONTINUED

When R. R. Arbiso appeared in Justice Cox's court this morning to answer for his preliminary hearing on a felony charge, the case was continued to Sept. 28. This is the second continuance of this case, the hearing having previously been set for Sept. 2. Attorneys Clyde Bishop and B. E. Tarver appear for the defendant.

Vagrancy Charged
Adam Curtis, or Cordis, appeared in Justice Cox's court this morning on a charge of vagrancy sworn to by Officer Vestal. Cordis was picked up yesterday, and upon arraignment this morning it was learned that he had been recently released from an insane asylum in Nevada. There is evidence that the man's mind is still unbalanced. He was committed to jail and further investigation will be made.

MARNE DEFEAT DENIED BY GERMANS

Berlin Hears Allies Exhausted; Vain Attacks on Lines of German Armies

IS ASSURED THAT PARIS WILL YET BE INVESTED

Charges of Atrocities by Russian Invaders and False Reports Made by Germans

BERLIN (via The Hague), Sept. 17.—The Germans were strongly maintaining their positions in France today, the war office announced. It was stated that the French and British troops exhausted themselves in vain attacks on the Kaiser's lines, which were declared everywhere as on the defensive.

The Berlin war office explained that the battle of the Marne was not a German defeat, stating that the speedy march into France had worn the Kaiser's troops out and it was deemed advisable to give them a rest. Conditions on the river Marne proved unfavorable, so the army was withdrawn to a position previously chosen. While the forces are recuperating, the concentration of supplies is progressing. The war office insisted that Paris will be invested as the plans of the general staff are worked out.

The Russians are reported by the war office as retreating everywhere in East Prussia. It was stated that the Austrians have effected a junction at Vienna and had telegraphed that they were resuming the offensive.

BERLIN (via Sayville, wireless), Sept. 17.—That Gen. von Hausen, commanding the German army operating between the armies of the Crown Prince and General von Buelow, has been officially announced. General von Hausen is 68, and his age is given as the reason for his retirement.

Russians Charged With Brutality
Shocking brutalities by the Russian invaders in East Prussia were charged today by the German war office. Lieutenant Tiedemann, fifth Prussian cuirassiers, is declared to have counted the bodies of twenty-one German recruits mutilated by the Cossacks. Reference was made to the capture of a Russian officer with a woman's finger bearing a valuable ring in his pocket. The commander of the Eleventh corps reported cases of the Russians chopping the fingers off of non-combatants. The war office announced that 1800 Galician traitors had arrived at Graz and were awaiting sentence. They have confessed they were paid by the Russians to signal the news of the Austrian and German advance.

The Socialist newspaper, the Vorwarts, has endorsed the North German Gazette's denial of Germany's exhaustion by the war. It asserted the Socialists wanted peace only on conditions insuring its permanency.

TRANSPORTS WILL BRING TROOPS HOME

WASHINGTON, Sept. 17.—Six transports are enroute to Vera Cruz today to bring the American troops home. Three sailed from Hampton Roads, two from Colon, and one from Galveston. Secretary of the Navy Garrison said that the evacuation will be completed in two weeks. He did not know where the troops will go.

100 TURNSTILES TO HANDLE FAIR CROWDS

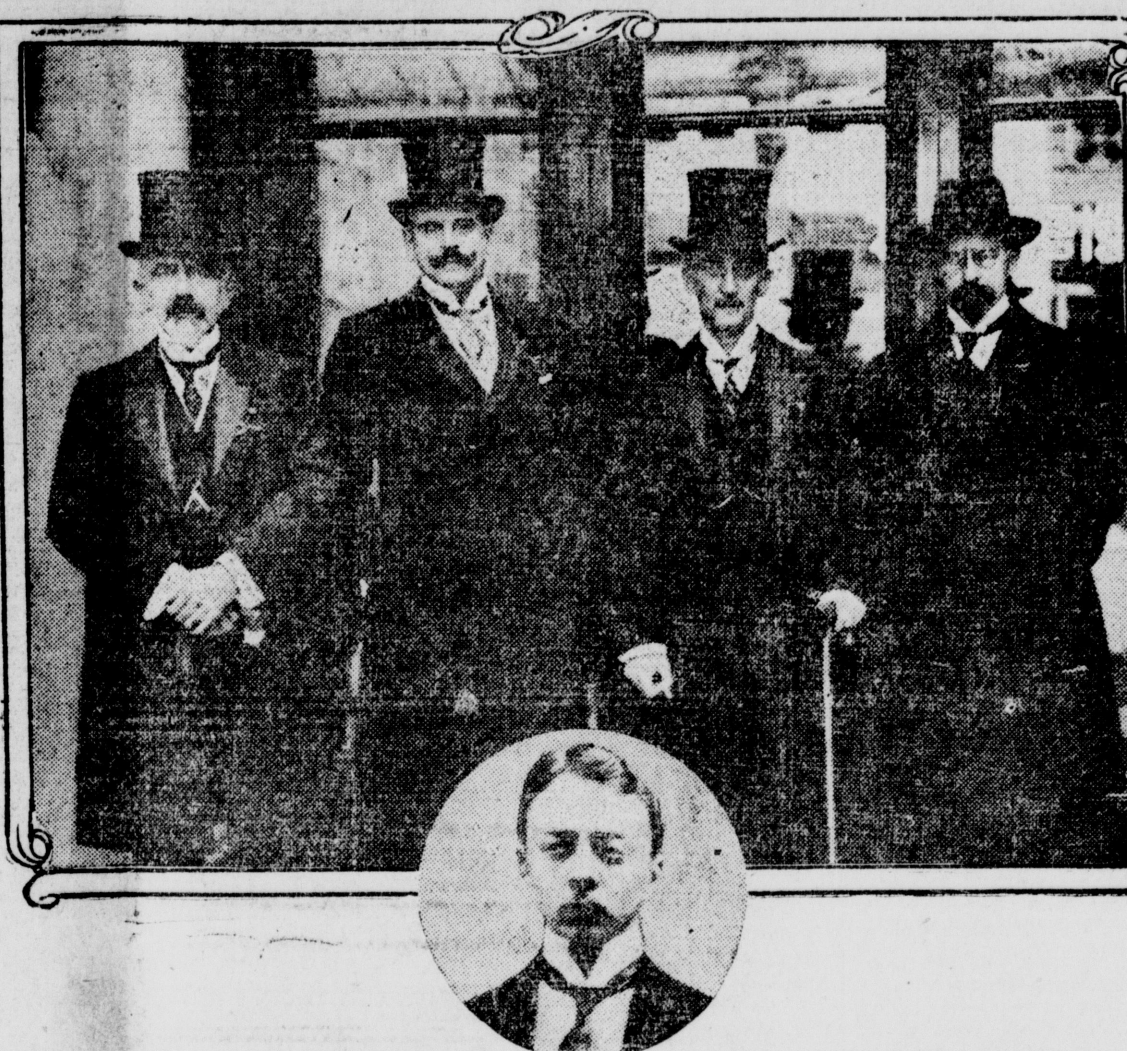

SAN FRANCISCO, Sept. 17.—Work of installing 100 turnstiles at the exposition gates was begun today. Each turnstile will have a capacity of from 1,200 to 2,000 persons an hour. These are expected to take care of all the attendance at the world's fair here in 1915.

No tickets will be sold, the visitor dropping the amount of the admission into a box on the turnstile. An electrical counter will be installed so that the head of the concessions and admissions bureau may sit in his office and tell the number of persons passing through the gate at any moment and the total that has passed through.

OFFERS NEW 4-YEAR AGRICULTURAL COURSE

MANHATTAN, Kan., Sept. 17.—With agriculture the chief industry of the state, the Kansas Agricultural College today for the first time offered a four-year course in agricultural engineering, covering work in farm machinery, irrigation or drainage engineering and flour milling. The school is the only institution in the United States to offer work in these three lines and its initiation indicates that Kansas is going to solve her own problems in that line.

COMMISSION SENT BY BELGIAN KING TO PLEAD WITH PRESIDENT WILSON

From Left to Right—Louis de Sadeleir; Henri Carton de Wiart, Socialist leader in Belgium and Minister of Justice; Paul Hymans, Liberal leader in Belgium; Emile de van der Veide, a Socialist leader. Count Louis de Lechtervelde, in circle, secretary to Prime Minister and now Secretary to the Commission.

"Before the fair mind of the great American people we will lay our case. We are content to let them be the judges of the truth."

So spoke Count Louis de Lechtervelde, secretary to the prime minister of Belgium and secretary for the Royal Belgian Commission of the King of the Belgians to the President of the United States, the five members of which arrived lately aboard the White Star liner Celtic

bound on a mission to lay before President Wilson the representations of King Albert of Belgium concerning German atrocities on Belgian soil.

The report, which was prepared by a government commission and which purports to be based upon evidence gathered from witnesses under oath, charges the Germans with attacks on women and children; with frightful executions, in-

cluding the burning of victims alive; with cruelty to the wounded and dying, and with pillaging and looting.

The commission's report gives in great detail the circumstances of the destruction of Louvain.

The Belgian commission, headed by Minister of Justice Carton de Wiart, was received at the White House at 2:15 o'clock this afternoon. They were accompanied by Secretary Bryan and Mr. Havenith, the Belgian minister.

GERMANS WITHDRAWN FROM PRUSSIA TO AID IN FRANCE

PETROGRAD, Sept. 17.—A part of Germany's first line in East Prussia is withdrawing today. It is believed the troops are more urgently needed in France than in the east. Half a dozen corps have already been transferred.

Austrian and German forces are concentrating at Cracow today, according to news from the southwest. The Russians have crossed the San to flank the retreating Austrians. Austrian prisoners attributed Austrian defeats to the number of untrained troops opposing the Russians.

They explained that when the war broke, Austria's picked forces were facing the Serbians, and instead of rushing the first line into Galicia, the general staff invaded Russian Poland.

Servian Invasion Fails
NISH, Servia, Sept. 17.—It is now admitted that Crown Prince Alexander's invasion of Austrian Slavonia has failed. The Austrians are said to have prepared a trap into which Prince Alexander fell, and his forces were compelled to withdraw. The Servian and Montenegrin invasion of Bosnia is being continued.

BELGIANS VISIT MOUNT VERNON

WASHINGTON, Sept. 17.—The Belgian envoys who came to America to protest against German atrocities visited Mount Vernon today. Henry D. Wiart, deposited a wreath bound with Belgian and American colors, on Washington's tomb. The inscription read: "Independent Belgium to George Washington, the founder of American Independence."

German-Americans Answer
Headed by Horace Brand, a group of German-Americans presented a reply to the Belgians' charges of atrocities to the president.

HENRY LEE SAYS HURT TO REPUTATION COSTLY

SAN FRANCISCO, Sept. 17.—Henry Lee, an attorney, yesterday afternoon filed suit for \$302,000 against Wm. J. Burns, the famous detective, alleging malicious prosecution. Lee was attorney for one of the corporations contending for the rich potash deposits near Series Lake, San Bernardino county. During his activities for his clients he claims he was arrested twice, once at Los Angeles and once at Oakland, costing \$2000 to gain his liberty. He asks \$300,000 for damage to his reputation.

GERMAN CATHOLICS OUT AGAINST PROHIBITION

SAN JOSE, Sept. 17.—Resolutions involving a determined stand against state-wide prohibition and outlining plans for a monster mass meeting to be held in San Francisco a few days previous to the November election to protest against the state being voted dry, have been passed here by the California State Federation of German Catholics in convention.

ITZUMO PATROLS COAST

SAN FRANCISCO, Sept. 17.—The Japanese cruiser Itzumo is patrolling the California coast again today. Captain Ramelius of the schooner Wilmington is reported as sighting her off Point Arena.

BASEBALL RESULTS

National League
First Game—Philadelphia, 6; Pittsburgh, 3.

BRAW SCOTCH LADS WEAR KHAKI KILTS

LONDON, Sept. 17.—The Scotch regiments won't give up their kilts. They have reluctantly permitted the war department to take away from them their plaid and their brightly colored bannocks and to substitute khaki for the highland hues, but they've got to be khaki kilts, not khaki trousers.

In these days of high-powered guns and scientific warfare when all of the old-fashioned fashions in fighting have been thrown away and not even a band or a life and drum corps can get onto a battle field, the Scotch regiments still hang to their bag pipers, or at least their bag pipers hang to them. No English regiments will light to music in the war, but the English war office didn't count the bagpipe as a musical instrument, much to the delight of the Scotch fighting men.

BERRYDALE ADDS NOVEL ATTRACTION

BERRYDALE, Sept. 17.—A private amusement place to be known as "Harmony Hall" is the latest thing in suburban Berrydale. A pavilion has been built on the grounds of D. F. Kellogg, who gave a grand barbecue on Labor Day to more than 200 invited guests mostly from Los Angeles. This pavilion is spacious in dimensions, being adapted for dancing and roller skating as well as amateur theatricals contemplated. The C. A. C. of Garden Grove will be the first to hold an evening entertainment of merry-making.

Mr. Kellogg is an enterprising citizen of Berrydale, spending as much of his time as possible at his ranch home. He is an official of the Southern Pacific railroad. His three sons, Frank, Vernon and Ralph, all of whom are accomplished musicians, make their home with Mrs. Kellogg at the ranch.

KILBANE AND ATTELL RE-MATCH
LOS ANGELES, Sept. 17.—Johnny Kilbane and Abe Attell are re-matched for a featherweight championship battle on October fifteenth at Vernon arena.

CATALINA SEEKS DISINCORPORATION

AVAILON, Sept. 17.—Plans are under consideration here among a number of property owners to reorganize the former Freeholders' Improvement Association of Avalon and to get back under the Santa Catalina Island Company administration.

It is now claimed that the business men and the property owners have had all the "experience" they require to prove to themselves that it is impossible for them to run Avalon as a city of the sixth class and continue their fight against the Santa Catalina Island Company.

Among those property owners who are heading the new movement are A. A. Carraherm, J. H. Stamford, E. J. Whitney and J. D. McLean. It is estimated that the business men this summer have lost \$225,000 from their gross receipts as a direct result of the municipal fight against the Santa Catalina Island Company.

A local business man stated at a meeting of a few of the property owners that his receipts were \$8000 less for 1914 than in any year since 1907. The fact that Avalon has had no band is said to have been one of the reasons why people have refused to patronize the resort. It is also asserted that cottages this year have been rented for \$40 per month during July and August which have heretofore brought a rental of \$125 per month during the summer months.

It is believed that an agreement which will cover a period of ten years, will shortly be entered into by the property owners and the Santa Catalina Island Company.

IMPORTANT MEETING OF NEW HAVEN TODAY

NEW YORK, Sept. 17.—An important meeting of the New Haven board of directors, the first in more than a month, was scheduled for today. The principal thing to come up will be the resignation of John L. Billiard. Just what action the board will take has not been indicated.

Billiard's resignation leaves twenty-two members on the board. In view of the fact that many of the directors have urged that the board has too many members and that it should be cut to nineteen, it is not thought that a successor will be named in Billiard's place.

STABBED FORTY TIMES AND SHOT IN HEAD—HE IS DEAD

LOS ANGELES, Sept. 17.—Stabbed forty times and shot in the chest, the dead body of Eleuteria Rangel, a Mexican section foreman, was found on the Santa Fe tracks here today. Three of his fellow countrymen were arrested on suspicion.

WAR TAX BILL MAY GO TO HOUSE THIS AFTERNOON

WASHINGTON, Sept. 17.—The Democratic members of the ways and means committee met today and approved the Underwood war tax bill. It was expected the bill would be introduced in the House either this afternoon or tomorrow. The Republicans plan a scathing minority report.

ALLIES HOPE HIGH FOR VICTORY

French Believed Winning Third Great Battle of the European War

FIGHT RAGES FIERCELY ON BANKS OF AISNE

Germans Repulsed in Furious Attacks—Verdun Siege Said Abandoned

BORDEAUX, Sept. 17.—Along the river Aisne the French are winning the third great battle with the Germans, War Minister Millerand declared today. The first was the battle of the Meuse and the Sambre, ending in the allies' masterly retreat. The second was that of the Marne river, followed by the retirement of the Germans.

The third is that of the Aisne, which he was confident the allies would win. Official reports, he pointed out, showed that the Germans are fighting in the open, proving that their positions have been forced and that the advantage is with the French and British. He declared that if the German army, which the people of Germany deemed invincible, should be decisively defeated, the Kaiser will face revolution.

Allies' Great Losses
PARIS, Sept. 17.—Vigorous fighting still raged today between the Franco-British armies and the Germans along the river Aisne, the allies attacking. The German attempts to counter attack failed. It is admitted that the allies' losses within the last two days have been the heaviest of the war, the Kaiser's artillery causing great havoc. The allies failed to flank the German right at Noyon. They are directing a frontal attack on Von Kluk, who, drawing closer to Von Buelow's command, was moving gradually toward the German center.

The war office admitted that the German pressure on the allies' left wing was terrific today. The pressure was exerted by the Kaiser's right wing along the Aisne, which was heavily reinforced by the forces of Von Kluk and Von Buelow. The Germans are making desperate attempts to resume the aggressive. Experts believed today that the Germans have withdrawn their East Prussian forces from the east and have thrown them furiously against the allies' left in a frantic effort to break through and renew the advance on Paris, so formidable were the attacks. The French are rushing reinforcements to the Aisne front from Paris and the Oise.

The French center is slowly driving the armies of the Crown Prince and the Duke of Wurtemberg toward the frontier. The Germans are resisting vigorously. Southward everything is favorable, and the Kaiser's Bavarian corps have already been forced from French soil.

Despite the herculean efforts of the enemy, General Gallieni had no fear today of the resumption of the German advance on Paris.

Verdun Siege Raised
It is believed the Germans have been compelled to raise the siege at Verdun. The Teutonic center is said to have been driven north and east to Varennes. General Gallieni stated that the Crown Prince's battle line is rapidly encroaching on his headquarters at Montfaucou. It is believed he will be compelled to transfer his headquarters to the Meuse, in direct line with Sedan gap, through which he will retreat if beaten. At 3:15 o'clock this afternoon General Gallieni announced:

"The fighting continues along the entire front from the Oise to the Meuse with the Germans fiercely resisting the French attack from fortified positions on the lines already indicated."

Russians Take Przemyel
The Russian occupation of Przemyel was announced by Le Matin today. Experts do not believe the Russians have yet occupied the main fortress, but admitted it is possible they have taken the town.

TO INVESTIGATE RADIO DISABLING

WASHINGTON, Sept. 17.—Lieutenant Felix Gyag was ordered by Secretary Daniels today to investigate the circumstances in connection with the disabling of the wireless station at Tuckerton, N. J. The secretary scouted any suggestions that the station was deliberately disabled by outsiders.

WEATHER FORECAST

Fair tonight and Friday; light west winds.

TERMINAL RATE FIGHT IS BEGUN

Merchants Determined to Have
Big Representation at Inter-
state Hearing

RAILROADS MAKE CLEVER MANEUVER

Question Most Vitally Impor-
tant in Commercial History
of Santa Ana

Following a thorough investigation
made by the joint committee appointed
yesterday afternoon at the meet-
ing of the Merchants and Manufac-
turers' Association, James S. Smart,
president of the Santa Ana Whole-
sale Grocery Company; George B.
Shattuck and William Diers, acting

MRS. LYON'S ACHES AND PAINS

Have All Gone Since Taking
Lydia E. Pinkham's Veg-
etable Compound.

Terre Hill, Pa.—"Kindly permit me
to give you my testimonial in favor of
Lydia E. Pinkham's
Vegetable Compound. When I first
began taking it I
was suffering from
female troubles for
some time and had
almost all kinds of
aches—pains in low-
er part of back and
in sides, and press-
ing down pains. I
could not sleep and
had no appetite. Since I have taken
Lydia E. Pinkham's Vegetable Com-
pound the aches and pains are all gone
and I feel like a new woman. I cannot
praise your medicine too highly."—Mrs.
AUGUSTUS LYON, Terre Hill, Pa.

It is true that nature and a woman's
work has produced the grandest remedy
for woman's ills that the world has
ever known. From the roots and
herbs of the field, Lydia E. Pinkham,
forty years ago, gave to womankind
a remedy for their peculiar ills which
has proved more efficacious than any
other combination of drugs ever com-
pounded, and today Lydia E. Pinkham's
Vegetable Compound is recognized
from coast to coast as the standard
remedy for woman's ills.

In the Pinkham Laboratory at Lynn,
Mass., are files containing hundreds of
thousands of letters from women seek-
ing health—many of them openly state
over their own signatures that they have
regained their health by taking Lydia
E. Pinkham's Vegetable Compound; and
in some cases that it has saved them
from surgical operations.

FALL MILLINERY OPENING

Friday and Saturday, September 18 and 19

We place on display the largest and most complete stock of ladies' street and dress hats ever shown in Orange county. Do not overlook the fact that this Big Daylight Store is in a position to save you money on Millinery. For Friday and Saturday only we will give **DOUBLE THE AMOUNT** of GREEN TRADING STAMPS on every hat purchased priced at \$5.00 or more.

We are also showing exclusive styles in Fall Coats, Suits, Dresses, Waists, Silks and Dress Goods. Notwithstanding the fact that all materials have increased in price we have not made any advances, as our stocks were purchased several months ago. Come in Friday and Saturday. Plenty of room in the Big Daylight Store.

CROOKSHANK-BEATTY COMPANY

for both the M. & M. and the Cham-
ber of Commerce, have found that the
recent decision of the Supreme Court
affirming the ruling of the Interstate
Commerce Commission, granting ter-
minal rates to all points west of the
mountains, applies only to the Regu-
lar Classification, and that the Com-
modity Tariffs, so called, remain as
before—that is, Los Angeles and other
terminal points, plus the local rate,
—at least until January 1, 1915; and a
hearing has been granted to the rail-
roads to be held in Chicago early in
October, at which the railroads will
endeavor to have the Commodity Tar-
iffs left permanently as they are.

A letter which the committee is
sending to the members of the Mer-
chants and Manufacturers' Association
contains the following:

"The railroads have cleverly, with-
in the last six months or so, covered
over into the commodity schedules
nearly everything that moves west, so
that 75 per cent or thereabouts of the
freight received comes in under Com-
modity rates. You will therefore see
the great need of a proper representa-
tion being made in our interest be-
fore the hearing to be held in Chi-
cago. If we lose out there we shall
be for all practical purposes where we
were before.

"We have the Interstate Commerce
Commission committed to the prin-
ciple for which we are contending,
and if we make the proper showing at
the hearing, we can doubtless win our
fight. Every point west of the moun-
tains, now receiving terminal rates,
should be aroused. We have not only
the railroads against us, but also the
important cities now receiving ter-
minal rates. We wish to impress up-
on you the importance of this fight
and bespeak your earnest co-opera-
tion in every way.

"We must raise \$600.00 in Orange
county at once to defray our share of
the expenses of the Inter-Counties
Freight Bureau. Up to this time we
have paid nothing, while other coun-
ties have paid out thousands of dol-
lars."

"This question is absolutely
the most vitally important in the com-
mercial history of Santa Ana," said
Smart. "The agricultural interests
will not be affected, whichever way
the question is decided. If Santa Ana,
and in fact every other city of the
coast, are not having terminal freight
rates, is to derive any benefits from
the opening of the Panama Canal, our
fight at the hearing of the Interstate
Commerce Commission must be won.

"If the railroads win, if they suc-
ceed in persuading the Commission to
allow 75 per cent of the freight com-
ing from the east to come under com-
modity rates, it will mean that manu-
facturing enterprises will continue to
locate only in the cities on this coast
which have terminal rates."

Scene from "The Banker's Daughter," featuring
Katherine La Salle, to be seen at the Temple Theatre,
today and tomorrow.

UNITED STATES COULD EASILY GROW ALL THE SUGAR IT NEEDS

"A total of 2,000,000 acres planted to
beets would free us from dependence
upon foreign-grown sugar," says Bul-
letin No. 260 of the U. S. Department
of Agriculture in calling attention to
the ease with which the United States
could make itself independent of the
rest of the world for its sugar sup-
ply. The Bulletin prints a list of nine-
teen states which have been demon-
strated to be well adapted to the grow-
ing of sugar beets. These states are
California, Colorado, Idaho, Illinois, In-
diana, Iowa, Kansas, Michigan, Minne-
sota, Missouri, Montana, Nebraska,
Nevada, North Dakota, Ohio, South
Dakota, Utah, Wisconsin, Wyoming.
These states contain more than 2,000,-
000 farms and over 278,000,000 acres
of improved lands. The Bulletin con-
tinues:

"If one farmer in four in these states
were to plant a three-acre patch and
give it the care that could readily be
bestowed upon so small a plot it would
be unnecessary for us to buy foreign
sugar, two-thirds of 1 per cent of the

improved land in this area is all that
would be required to accomplish this
result. More than that acreage lies
idle, absolutely unused, every year.
Any one of the states of Illinois, Iowa,
Kansas, Missouri, Minnesota, Nebras-
ka, or Ohio could produce all this sug-
ar and then have the beets occur only
in a ten-year rotation; several of the
others could do it alone on a five-year
rotation.

"From this table it can be seen that
devoting the proposed 2,000,000 acres
to sugar-beet production would have
an utterly insignificant effect in re-
ducing the acreage of other crops. If
they were grown in properly consid-
ered rotations with any of these crops
except cotton and rice the effect of the
beets in increasing the yield of the
others would be much more than counter-
balance the acreage taken from the
latter. All that is necessary, so far
as acreage is concerned, in order to
make us independent sugar producers,
is to bring the crop to a parity with
flax or rye."

ELY'S CREAM BALM OPENS CLOGGED NOSTRILS AND HEAD--CATARRH GOES

Instantly Clears Air Passages; You
Breathe Freely, Nasty Discharge
Stops, Head Colds and Dull Head-
ache Vanish.

Try "Ely's Cream Balm."

Get a small bottle anyway, just to
try it—apply a little in the nostrils
and instantly your clogged nose and
stopped-up air passages of the head
will open; you will breathe freely;
dullness and headache disappear. By
morning the catarrh, cold-in-head or
catarrhal sore throat will be gone.

End such misery now! Get the small
bottle of "Ely's Cream Balm" at any
drug store. This sweet, fragrant

picking, orange and walnut groves.

Mr. McDannald believes there will
be a very large attendance at the San
Diego fair as well as in San Fran-
cisco.

He will spend most of next year at
the first named city boosting for Or-
ange county, but expects to make oc-
casional trips to San Francisco.

SCHOOL REGISTRATION BEGINS ON MONDAY

Registration for the Santa Ana In-
termediate School will begin on Mon-
day, September 21, at 9:30 a. m. and
continue through Tuesday, the 22nd
inst., and Wednesday, the 23rd inst.
The hours for registration will be
from 9:30 until 12 m., and from 1:30
until 4 p. m.

It is important that all seventh and
eighth grade pupils who enter the
school on Monday, September 28,
should register on the above dates in
order that the school may be organ-
ized and ready for the opening of
school. Pupils who enter the Inter-
mediate School for the first time
should bring their report cards or other
credentials. This is not necessary for
pupils who were in attendance at
the Intermediate School last year.

B. & O. ASKS I. C. C. FOR RELIEF FROM RATE CUT

WASHINGTON, Sept. 17.—Represent-
ing the railroads affected by the
5 per cent rate increase decision,
President Willard of the Baltimore &
Ohio road has just filed a peti-
tion for further relief with the
Interstate Commerce Commission.
The effect of the European war on the
railroads was cited as the reason for
the petition.

COMMITTEES ARE NAMED FOR WORK

Democrats Complete Plans for
Conducting the Coming
Campaign

At a meeting of the Democratic
County Central Committee held yes-
terday details of plans for the coming
campaign were worked out, and com-
mittees named to carry on the work.
Chairman H. C. Head announced the
appointment of the executive com-
mittee, as follows:

First District, B. E. Tarver; second
district, W. H. Bentley; third district,
W. B. Brown; fourth district, D. C.
Pixley; fifth district, J. R. Jumper.
Chairman Head and Secretary Over-
shiner are also members of this com-
mittee.

Reports were received regarding the
appointment of an auxiliary com-
mittee to consist of one member for each
precinct in the county—seventy-five
in all. The names of this committee
were submitted and approved by the
general committee and their appoint-
ment confirmed. It will be the duty
of the members of this auxiliary com-
mittee to look after the registration of
voters in their various precincts and
to act as a finance committee to as-
ist in securing the needs of war for
the campaign.

East Fourth St. Main 253.

"Style is the man himself" --and his clothes prove it.

Clothes do not make the man,—they REVEAL him.

Therefore clothes either correctly represent you or mis-
represent you. If right they are a big help. If wrong they
clash and subtract from your style and personality.

Our strong lines of suits at \$15, \$18, \$20, \$25

are made in such a wide range of styles and in so many
different kinds of fabrics that you can pick out a stylish
suit that matches your style.

Do you know that there are many suits sold at much
higher prices, that are not hand tailored in the vital parts,
that are not designed by a fashion artist, that are not guar-
anteed?

MEN'S NEW FALL FURNISHINGS.

New Fall Stetson Hats \$4.00 and \$5.00
New Fall Mallory Hats \$3.00 and \$3.50
Eagle Caps \$1.00, \$1.50 and \$2.00
Latest Fashions in Neckwear 50c
Newest things in Fall Shirts at \$1.00, \$1.50 and \$2.00

WOMAN INJURED WHEN AUTO HITS RIG

Car Driven by Santa Ana Man
Clips Wheel Off
Buggy

ONTARIO, Sept. 17.—Thrown from a buggy at A street and Euclid avenue and dragged beneath the rig by a frightened horse after a rear wheel of the vehicle in which she was riding had been clipped off by a motor car driven by Ira D. Annis of Santa Ana, Mrs. G. C. McCormick is in a serious condition at her home, No. 1101 East D. street.

Mrs. McCormick was crossing the car tracks on Euclid avenue, when her horse apparently shied and threw the buggy directly in line with the Annis automobile, which was approaching from the rear. When the machine struck the rig, the horse, terrified afresh, plunged in such a manner as to throw Mrs. McCormick onto the pavement and beneath the buggy, so that she was dragged for some distance by the plunging animal.

Bystanders hastened to the woman's assistance. She was first removed to a physician's office and later to her home. She is suffering from severe cuts about the face and head and was dangerously bruised. While it is now thought that her injuries will not prove as serious as at first feared, it is impossible to yet ascertain the extent of her internal injuries.

The buggy in which Mrs. McCormick rode is a total wreck, but the automobile was only slightly injured. The occupants of the machine were unhurt, but badly shocked.

Cost Kept Down—Quality Kept Up
—No better medicine could be made for coughs, colds, croup, hoarseness, tickling throat, bronchitis, etc., than Foley's Honey and Tar Compound. That's why they can't improve the quality, and war or no war, the price remains the same. E. J. Sargent, Dallas, Tex., says: "I believe Foley's Honey and Tar has no equal for it completely relieved me of all symptoms of tuberculosis and my cough has entirely disappeared." Don't accept any substitute, for Foley's Honey and Tar is the best. Wingood's Drug Store.—Advertisement.

Large assortment of black eardrops, 50c and 75c at Padgham's. See window.

VOTE CALIFORNIA DRY

THE WETS' "CONFISCATION"
HOBBY EXPLODED

In Volume 2, Nos. 3 and 4, Monthly Bulletins of State Commission on Horticulture, published in March and April, 1913, (before the dry campaign began) we find the following statements:

On page 484 Prof. F. T. Biolotti of the State University says: "He (the wine grower) is selling his grapes at cost and receiving nothing for his time and expenditure of energy."

On page 492 Frank T. Sweet of Martin says: "If the wine grapes of the San Joaquin had brought \$14.00 a ton instead of \$6.00 it would be a delight to consider the best ways of increasing vineyard acreage."

On page 497, Mr. Sweet says: "The average vineyard of the interior valleys has been run at a financial loss."

Page 512, H. F. Stall, secretary, California Grape Protective Association, says: "That the most serious difficulty is the labor problem. Prohibitive prices had to be paid to Japs and Hindoos ('Huh') but with the opening of the canal the influx of immigration from Southern Europe will help adjust this vexing problem."

The above shows there is nothing to confiscate, and pauper labor of Europe is their only hope.

Such of you voters as believe in the protection of American labor vote "DRY" and they will plant their land to something that will enable them to pay a living wage.

California Dry Com. for Santa Ana.

We are showing a large line of the newest styles in tailored hats at \$5.00, including some of the smartest of the new fall turbans. MEXICAN CARVES UP TWO WITH BEET KNIFE

Drunken Quarrel Ends Celebration
of Independence Day
at Talbert

As a fitting—or at least a customary—close to the celebration of Mexican Independence Day at Talbert yesterday, one Mexican, Florentine Duarte, is in the county hospital, badly carved with a beet knife; another, named Albino, has a severe gash on his left wrist, and still another, one Gregorio Dominguez, is under arrest in the local jail. From the foregoing the natural inference would be that Dominguez wielded the knife that did the cutting that put Duarte in the hospital and Albino in a sling.

About 8 o'clock last night the sheriff's office was notified that there was trouble at Talbert, and Sheriff Ruddock and Deputy Stacey proceeded post-haste to the ballfield in the peninsula which has been the scene of so many sanguinary conflicts of this kind. When the officers reached Talbert they found Duarte lying in a ditch, water-soaked and artistically decorated with knife wounds. A cut running half way around the left forearm, another on the forehead laying the flesh open to the bone, a gash across the chest, a bad cut in front of the right ear and one on the lower lip make up the list of injuries suffered by Duarte.

Albino escaped with a cut on the left wrist. The two injured men were brought to this city and one was sent to the hospital.

The quarrel started between Dominguez and Duarte, who are brothers-in-law, and Albino essayed the role of peace-maker, and in his efforts to subdue the belligerents came in contact with Dominguez's beet knife.

This morning Under Sheriff George Law, in company with Albino, who is held as a witness in the case, started out on a hunt for Dominguez. The fugitive was finally located at the home of Marcelo Cienega on Apio street, west of Garden Grove. Dominguez was placed under arrest and is now in the county jail.

County Physician Wehrly stated this morning that Duarte's injuries, while severe, are not dangerous.

GARDEN GROVE NEWS BUDGET

GARDEN GROVE, Sept. 16.—Miss Constance German, who has been visiting her aunt, Miss C. Irvine, of Downey, for the past two weeks, returned home this morning.

Sunday, Sept. 27, will be rally day in the M. E. church.

Mr. and Mrs. J. D. Albians motored from Alhambra to spend a few hours with Mr. and Mrs. Underwood, Saturday.

Mrs. M. Urwick, of San Diego, is spending a couple of weeks with her parents, Mr. and Mrs. Niles.

The new Methodist church of Westminster is to be dedicated next Sunday, Sept. 20. Some of the Y. M. C.

Walnuts, Grapes,
Almonds, Apples,
Pears, Cherries,
Prunes, Peaches,
Apricots, Currants,
Gooseberries,
Blackberries, Etc.

are successfully grown in the Templeton-Paso Robles district without any irrigation whatever—without irrigation! Do you get that? Think of the advantages to be had in fruit and nut growing under California conditions but with no irrigation. It means no initial or maintenance expense of a water system, no costly irrigating. It means a lower cost of production, finer flavored fruit and better keeping and shipping quality.

No Irrigation?

Absolutely true. It's demonstrated beyond any question, and the quality is also proven by the many medals and blue ribbons won at important fairs and expositions.

This district is one of a very few localities in California where fruits and nuts can be grown to perfection in commercial quantities without irrigation and is sure to attain great distinction. Next week I will tell you about the advantageous market conditions, the delightful climate and beautiful scenery.

I have a list of good ranches—most any size—at low prices. For particulars, write me your name and address.

We take pleasure in announcing the
advance fall showing of Wooltex

coats, suits and skirts

The first collection of the handsome new garments for fall, 1914, has arrived.

It is a small, but very choice and attractive assemblage of Wooltex garments, such as will be wanted immediately by women who enjoy being first to wear the new fashions.

Styles as expressed in Wooltex apparel are authoritative. The garments are designed and tailored with exceptional artistic skill, bringing out the completest beauty of the season's styles in the most charming and original fabrics.

This season there are many features about Wooltex and the new fashions that will be gratifying to women of refinement and good taste.

The approved lines are more graceful and the new skirts provide

more walking room than women have had during the past few seasons.

The straight line effect is a dominating feature, but it is made very graceful and charming by the influence of the ripples which are produced in coats, suits and skirts.

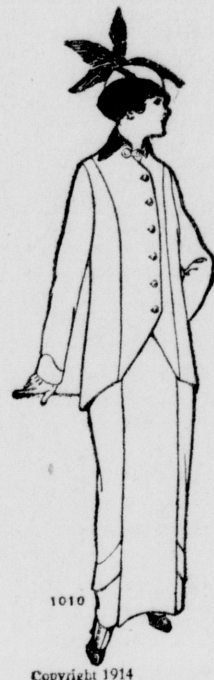

There are too many splendid features to tell about here. We invite you to come and view the exhibition and see in the garments themselves, what new beauties the fall fashions have presented.

112-114-116 East Fifth St.

A. boys from Garden Grove will have charge of the League meeting at 6:30 p. m.

Mrs. Eunice Atkins of Los Angeles spent Sunday with her aunt, Mrs. Vienna Donelson.

The Happy Workers of the Westminster Presbyterian church meet with Mrs. T. Niles next Wednesday, Sept. 23, for an all day meeting.

Mrs. McBride and baby, of Los Angeles, are spending a few days with her parents, Mr. and Mrs. G. Green.

Mr. Eugene Elliott is very sick.

Mrs. B. S. Boyer, who has been visiting her parents for two months, returned to her home in Thermal a few days ago, where she is principal of the grammar school.

Mr. Frank Winters, who has been

sick for several days with tonsillitis, is getting better.

The twenty-second annual convention of the Woman's Home Missionary Society, of the San Diego District of Southern California Conference, was well represented Wednesday by delegates from the Queen Esther Society and the Home Missionary Society of the M. E. church of this place.

Both men were thrown out. Leslie, who was driving, had his collar bone fractured and received a number of severe bruises and lacerations. Federman sustained the more serious injuries. His skull was indented by the fall, and it was several hours after being taken to the hospital before he regained consciousness. A fracture of the shoulder blade and other wounds of a less serious character add to his troubles.

Mr. Federman is a shoe dealer at Anaheim, and Mr. Leslie is the proprietor of the Racket store.

They had been to the city in Leslie's machine and were on their way to Anaheim when the auto turned over near the top of the hill between La Habra and Fullerton.

BOLSA NOTES
BOLSA, Sept. 16.—Bean harvest has begun again. Mr. Price and Mr. Harding each have their beans cut and piled.

Mrs. D. W. Spradlin is on the sick list.

Miss Melia Ross spent Saturday and Sunday with Mrs. A. F. Rice of Smelter.

Misses Emma Varner, Pearl Rusk, Maybelle Patterson and Mr. Carl Patterson, all started in Monday at the Huntington Beach high school.

A large crowd attended the Children's Day exercises at Bolsa last Sunday evening.

Mrs. Blakey and daughter, Miss Leora, spent Tuesday with Mrs. Farnsworth.

Rev. Waldrep and family spent Wednesday with Mr. and Mrs. Haish.

Miss Minerva Shriver is visiting at the Blankenbecker home.

MEMBER OF THE UNITED PRESS
Entered in the Postoffice in Santa Ana, Cal., as second-class matter.

WHAT BECAME OF THE INCOME TAX?

The government guessed very correctly as to the yield of the so-called "normal income tax." But in the higher scales of payment the results proved disappointing. About \$12,000,000 was expected on incomes ranging from \$20,000 to \$50,000. But the government actually got less than \$3,000,000 from this class.

Have our millionaires dodged the tax? It would hardly seem a safe game, considering the indifference that internal revenue collectors show to local sentiment.

There seems to be one very wide loop-hole. And that is in the general understanding, as the law is interpreted, that losses in investments can be deducted from income. There was, during the last calendar year, a large shrinkage in the stock market. A great many millionaires sold stocks at a loss. These shrinkages were probably deducted from income, so that nothing taxable was left. Also, if in making returns people have been permitted to value their present holdings at the market quotations prevailing last December, thousands of persons of great wealth would be able to say that they had no taxable income.

This is of course a perfectly fair way of making these returns, provided that when the market rises the advance in values is reflected in just the same way. It is quite possible that the taxpayer will not then be so ready to base his return on market prices.

The treatment of such shrinkages and accretions of value is very difficult. It would seem at first sight that such changes in value should be calculated only when an actual sale of a stock has been made. Yet that would bear hard on people who have permanently invested in certain securities, and whose capital has shrunk for good, as the result of the fall in values.

WAR AND ALCOHOL

During the Civil War, General McClellan said that the abolition of drink from the army would be equivalent to the addition of 50,000 soldiers to the Federal forces. Drink was not abolished because the drink sellers, who made profit out of it, were powerful enough to prevent it. In the European wars now pending alcohol is being tabooed everywhere.

The Kaiser has ordered that no alcoholic liquor be sold or given to any German soldier, according to the newspaper dispatches.

The Czar of Russia has closed up all of the vodka shops in the empire, taking his cue from the defeat of the vodka-soaked troops by the Japanese abstainers during the war with that country.

France has forbidden the sale of the stronger liquors to French soldiers. Lord Kitchener issued a warning to the British soldiers, as they began leaving for the continent, urging them to abstain from the French wines, and forbidding the sending of liquor to British soldiers.

In order to conserve her grain resources, the Norwegian government has closed all the breweries and distilleries of that kingdom.

In Stockholm, the Swedish government has issued orders closing all of the alcoholic drink shops.

Says the New York World on this subject:

A temperate army was something not conceived of in the old theories of war. But, in fact, a drunkard is today as much out of place in an army as he would be on a battleship. A modern army is a fighting machine only less complex in its nature than a modern navy, and equally dependent on sobriety in the ranks.

WAR ON SICKNESS

War has been declared on industrial sickness by the American Association for Labor Legislation. Following the successful campaign for accident compensation which now has captured the principal states, a committee of the nation's experts who have been working quietly on plans for a year and a half, declares that sickness insurance must be established with emphasis on medical care in order that it shall lead to a campaign of health conservation similar to the "safety first" movement resulting from accident compensation.

The committee includes such leading authorities as Henry R. Seager, Miles M. Dawson, Edward T. D. Devine and Dr. I. M. Rubinow of New York, Charles R. Henderson of Chicago University, Henry J. Harris of the Library of Congress, and Carroll W. Doten of Boston, and has the cooperation of expert legislative drafts-

men and leading representatives of workmen and employers. The Association for Labor Legislation called the first American conferences on Occupational Diseases in 1910 and on Social Insurance in 1913, and announces it is now drafting bills for a vigorous legislative campaign to initiate the movement for sickness insurance in the United States.

FERRY TO HAVANA BENEFITS SHIPPING

KEY WEST, Fla., Sept. 17.—Shippers all over the country are expected to be benefited when the new car ferry to Havana, the largest of its kind ever constructed, is completed and put into operation soon.

A steel vessel, 350 feet long, the new ferry will carry thirty loaded freight cars to Havana, a distance of ninety-six miles, in eight hours. It will be possible for a factory in Chicago to ship a carload of goods to Havana without once breaking the car seal and enable Chicago shippers to make a seventh-day delivery in Havana. Other cities will make similar gains in time of shipment.

MANY BIKES TAKEN AT MOTHER COLONY

Anaheim Daily Herald: The fact that a large number of bicycles are being stolen in this city was reported to a representative of the Daily Herald today. The information stated that it has been the habit of the thieves to make a getaway with practically new wheels and that it is very seldom that they are caught. Various other complaints of a similar character have reached this office during the last few months.

Miss Sarah Gardner will open a class in piano instruction, taking a limited number of pupils. Her studio will be at her residence, 412 West Washington. Miss Gardner has taken the well-known Burrows course of study, covering three years. Her success with beginners is well established. Telephone 312R.

DEMOCRATIC PLATFORM IS SHORT AND SWEET

SACRAMENTO, Sept. 17.—The Democratic State convention adjourned late yesterday afternoon, after adopting a platform and ratifying the membership of the new State Central Committee. This committee will hold its first session Saturday, September 19, in San Francisco. Then its officers will be elected and the work of the campaign outlined.

On the new committee are most of the prominent leaders of the state. Among them are John B. Curtin, candidate for governor; Anthony Caminetti, Theodore A. Bell, Robert H. Dewitt, Charles King, Fred H. Hall, Edward White, Sidney Van Wyck, Ed Leake, James D. Phelan, J. V. Snyder, Lorin A. Handley, Isidore Dockweiler, I. G. Zumwalt, J. J. Scott, Tim Spellacy, J. Stuckenbruck and R. F. Del Valle.

The Democratic platform, the shortest of the three campaign documents, pays a hearty tribute to President Wilson, endorsing particularly the Mexican policy, and the handling of the war problems. It then turns its attention to the present state administration, denouncing it as extravagant and its head as the creator of the most powerful and illegitimate machine in the history of California.

The total exclusion of Asiatics is demanded, as well as additional child labor laws. The abolition of "useless" state commissions is advocated, the money now expended on them to be used to the building up of the public school system. The protection of the forests, the conservation of water power and power sites, and the public ownership of public utilities is favored.

FREDERICKS' POLITICS FRAMED UP IN REPUBLICAN PLATFORM

SACRAMENTO, Sept. 17.—Adopting a platform that pledges the municipal control of the San Francisco harbor front, the Republican party convention adjourned yesterday afternoon after organizing the State Central and Executive Committees to join the campaign for the election of John D. Fredericks as governor.

Fredericks addressed the convention shortly before adjournment and aroused enthusiasm by his declaration of party principles and beliefs.

"I want to see men enunciate principles in which they believe," he said, "and not ideas and isms designed to keep them in popular favor."

"I am carrying the flag of Republicanism into the battle because I believe that it is only through Republicanism that we can return to the home, to the shop, to the factory and to the family the prosperity that should be enjoyed by this great commonwealth."

Fredericks' Policies
The platform adopted by the party enumerates in detail the policies sponsored by Fredericks. The platform refers to the records of the Legislature to substantiate the claims of the party that the direct primary law, the juvenile court law, the full train crew law, the child labor law, the anti-race track law, the separation of state and county taxation, the workmen's compensation act, the pure food law, woman's suffrage

and other constructive legislative measures had their genesis in the Republican party.

The convention met at 10:30 yesterday morning and took a recess until the afternoon while the committee working on the organization of the State Central Committee went into session with Fredericks. The work of organizing the State Central Committee was completed at 2 p. m., when the convention reassembled.

Major Francis V. Keessling of San Francisco, named chairman of the State Central Committee, made a brief address outlining the significance of the reunion in the Republican party.

Peace Resolutions
The names of the Executive Committee, of which Walter F. Bacon of San Francisco is to be chairman, were then announced and the report of its organization adopted by the convention. Congressman Joseph R. Knowland addressed the convention on the issues of the campaign, following Fredericks.

Resolutions endorsing the peace movement were introduced by Frank A. Miller of Riverside and adopted. Among the other speakers was Frank A. Short, the Fresno spell-binder.

The convention adjourned to meet at the call of Charles F. Fury, chairman. Alfred A. Bartlett, secretary of the convention, will serve as temporary secretary of the Executive Committee of thirty-five members.

Ringling Platform Is Adopted by Progressives

SAN FRANCISCO, Sept. 17.—Endorsing the brilliant administration of Governor Johnson, lauding the work of John M. Eshleman as head of the State Railroad commission and commending the public services of Francis J. Heney, the Progressive convention yesterday adopted a ringing platform and closed what has been probably the most enthusiastic political convention ever witnessed in California.

The platform affirmed that the supreme duty of all government is the conservation of human resources through an enlightened measure of social and industrial justice. This was the keynote of the platform addresses.

The tariff was given especial prominence, the plank declaring for a protective tariff and a permanent non-partisan tariff commission wholly removed from possibility of political pressure or improper business influence.

Old Times Are Recalled
Referring to conditions that existed in California prior to Governor Johnson's administration, the platform has the following to say:

"Four years ago when the present governor and state administration took office, California was in the hands of special interests that had exploited the government of this state for improper private benefit. Again the people of this state are menaced by the same predatory interests attempting by subterfuge to regain control of the government and to break down that high degree of government efficiency for all the people which has distinguished the present administration. The men representing those interests dare not go before the people upon the real issue. The same inter-

ests, represented by the same leaders who, in the past, opposed every forward step toward political and economy freedom and humanitarian legislation, are attempting to deceive the members of their own party and the people generally by claiming credit for the enactment of the great progressive measures which they have always opposed, and by making promises which they do not intend to fulfill.

Performances Vow Promise
The test of good faith in public officers and in party leaders is found, not in their promises but in their performances. We therefore invite the attention of the people of the state, regardless of party affiliations, to the records of all candidates and their sponsors who are now before the people.

"We congratulate the people of California on the nomination of John M. Eshleman for lieutenant governor because of the eminent services rendered by him as president of the State Railroad Commission to all of the people of California and his demonstrated fitness for the high office for which he has been nominated."

A departure from the customary party platform was the inclusion of congratulations to the rank and file of both Republicans and Democrats for having nominated various members of the present state administration. Republicans have nominated Eshleman for lieutenant governor, Webb for attorney general, Chambers for controller and Richardson for treasurer, while the Democrats, in addition to nominating Webb, Chambers and Richardson, nominated Kingsbury, Progressive candidate for surveyor general. In this connection the plat-

form says:

"We congratulate also the members of the Republican and Democratic parties upon the discernment with which, at the recent primary, they gave their party nominations to conspicuous members of the present state administration."

Tribute From Rank and File

"We take the fact that the Republican state ticket, with three exceptions, consists of members of the present state administration and that the Democratic state ticket, with three exceptions, consists of members of the present state administration to be an endorsement of that administration by the rank and file of those parties."

"We believe that this indicates that the people of the state of California no longer will be led through blind partisanship to the selection of candidates for state office."

The platform opposes the attempt by the Fredericks sponsors to repeal the direct primary law and points with pride to the achievements during the past four years. It says:

"The present administration has revised and modernized the fiscal system of the state. It has introduced honesty, order and economy where dishonesty, disorder and extravagance formerly prevailed. It has modernized the hospitals, the prisons and all state departments and institutions. It has done away with special privileges. It has unseated the private interests which ruled California with intolerable tyranny for so many years. It has given the people the means by which they can preserve their political freedom and hold public officers responsible to the public will."

"It has done the great work of the State Railroad Commission, which justly reduced rates of railroad, express, telephone, telegraph and other public utility companies by \$6,000,000 a year, and has by its course so encouraged investors that in the past three years \$371,000,000 of foreign and domestic capital have been invested in the securities of California public utilities."

Reactionaries Are Scored

Referring to the action of the reactionaries in claiming credit for the Johnson policies, the platform says:

"Until a few months ago, these men, the candidates and their sponsors, who are seeking to ride into power, were loud in their outcry against 'freak legislation.' They sneered and jibed at all those laws designed to lighten the burdens of the many by abolishing the privileges of the few. But now, with an amazing and amusing change of front, they claim that they enacted that legislation, that they gave to the state equal suffrage, workmen's compensation, the initiative, the referendum, the recall, the economy and efficiency of government wrought by the Board of Control, the Public Utilities Act and the work of the Railroad Commission, and all the other accomplishments of the present administration."

The Progressive convention provided for the State Central Committee, to consist of twelve members from each Congressional district and 146 at large. The first meeting of the new committee will be held in San Francisco September 26.

CERTIFICATE OF BUSINESS

Fictitious Firm Name

The undersigned do hereby certify that they are conducting an Architectural business at Rooms 1-4 Register Building, City of Santa Ana, County of Orange, State of California, under the fictitious firm name of Eley & Hawley, and that said firm is composed of the following persons whose names and addresses are as follows, to-wit:

Frederick H. Eley, 1802 Bush St., Santa Ana, California.
John B. Hawley, 1407 Bush St., Santa Ana, California.

Witness my hands this 15th day of September, 1914.

FREDERICK H. ELEY,
JOHN B. HAWLEY.

State of California County of Orange—ss. On this 15th day of September, in the year nineteen hundred and fourteen, before me, W. B. Williams, County Clerk in and for said county, residing therein, duly commissioned and sworn, personally appeared Frederick H. Eley and John B. Hawley, known to me to be the persons whose names are subscribed to the within instrument and acknowledged to me that they executed the same.

Witness my hand and official seal. (Seal) W. B. WILLIAMS, County Clerk in and for said County and State of California.

Doings In Social and Club Circles

SUCCESSFUL MEETING

Mission Society of Congregational Church Listened to Fine Afternoon Program

The first meeting of the Missionary Society of the First Congregational church in the parlor of the church. The parlor was made attractive with an abundance of brown-eyed Susans and yellow poppies tastefully arranged. A goodly number of ladies were present which was very encouraging for the year's outlook. The president, Mrs. C. F. Crose, during the devotional exercises very convincingly spoke of the necessity of putting life into the plans and purposes of the society.

The clever dialogue, "Leaven of Noisy Creek," given by Mrs. George Weltbrecht and Mrs. Frederick Eley, was very enthusiastically received, as were the whistling solo by Miss Rena Cranston, who delighted the ladies with two selections, and the duet, "Abide With Me," by Misses W. H. and C. F. Crose. "The Lady in the Watchtower," Mrs. P. L. Tople, gave some instructive and interesting items in the attitude of America toward the Indian immigrant; the Congress of Missions to be held at the Panama Exposition, and the good in a missionary way by the elimination of denominational lines.

During the business meeting it was decided to extend an invitation to the district meeting of the Missionary Societies of the Congregational church to meet with the local society on the last Thursday in October. The afternoon closed with the enjoyment of dainty refreshments served by the officers of the society.

Pleasant Dinner Party

Mrs. E. M. Adams and Miss Jessie Adams of this city were guests last evening at a dinner party given by Miss Margery Condon of Orange in honor of Mr. and Mrs. Walter Adams of Mill Creek, near Redlands. Mr. and Mrs. Adams have just returned from a two weeks' vacation trip to the "Big Trees" and other northern points of interest. They made the trip in their automobile, and on the return trip stopped at Villa Park to visit Mr. Adams' parents, Mr. and Mrs. E. M. Adams. They left this morning for Mill Creek, where Walter Adams is employed with the Edison Power Company.

The dinner of last evening was prettily appointed, and greenery adorned the North Street street home and the table. Covers were laid for the hostess; the guests of honor, Mr. and Mrs. Walter Adams; and Mr. and Mrs. J. P. Holditch and daughter, Gwendolyn, of Villa Park; and Mrs. A. E. Hughes, Mr. and Mrs. J. W. Condon, Miss Clara Condon of Orange; Mrs. E. M. Adams and Miss Jessie Adams of Santa Ana.

Returning from Visit

Miss Caroline Haughton is expected home next week from a visit of two months in various cities of the Lone Star state. As soon as Miss Haughton arrives she will actively resume work with her music classes. She is a most successful teacher and has established a firm place for herself in the music teaching profession in Santa Ana. She was kept busy with a large number of pupils through last season and comes home well rested for the winter's work.

Miss Haughton is now in Denver, Colorado, visiting friends.

Going on a Vacation?

There are just lots of things you'll need for a happy, comfortable vacation trip.

Here's a handy list to check over. Just a few suggestions. You'll think of articles omitted. Write them down and when you're ready bring the list in.

Toilet Waters Foot Powder
Fountain Pens Cold Cream
Tooth Brushes Soap
Drinking Cups Bath Caps
Bath Requisites Kodak Films
Shaving Supplies Stationery
Talcum Powder Hair Brushes
Combs

It is easy to make your purchases now. Have them handy just when you want them.

ROWLEY DRUG CO.

For Collegians

A merry party assembled last night at the home of Mr. and Mrs. A. J. Smiley, 703 Washington Avenue, to do honor to the young people of the Smiley family who are soon to leave for college. The complimented young people included Misses Katherine and Isabel Smiley, daughters of Mr. and Mrs. J. A. Smiley; Donald and Kenneth Smiley, sons of Mr. and Mrs. E. M. Smiley; Stewart and Carson Smith, sons of Mr. and Mrs. R. R. Smith. The young ladies go to Pomona College, and the quartet of young men claim Occidental College as their Alma Mater. All of them leave for their respective colleges next week but Miss Katherine Smiley, who leaves for Claremont today.

The Smiley home was attractively adorned with pink roses, and the evening was spent in playing games, the enjoyment of music and delicious refreshments. Miss Smiley assisting her mother in the serving of the dainties. The guests of the evening were Misses Katherine and Isabel Smiley, Stewart and Carson Smith, Donald and Kenneth Smiley, Miss Beth Phillips, Mr. and Mrs. R. W. Beals, Dr. and Mrs. Bay, Mr. and Mrs. Andrew Smiley.

For Betrothed Couple

Misses Nancy and Carrie Elder were hostesses on Tuesday evening for Miss Grace Wells and her fiancé, Irvin Greathouse. The East Walnut street home was tastefully decorated with masses of sunflowers, and the evening was as jolly as the flowers were radiant.

A supper was charmingly served at a late hour with places marked for the hostesses, the guests of honor and Misses Grace Wells, Edith Wells, Virgil Potts and Josephine McCrory; Messrs. Irvin Greathouse, Chas. Tidball, Glenn Tidball, Arthur Anderson and Jasper Osborn.

Gifted Musician Coming

Miss Kathryn Ballew, a recent graduate of Northwestern University of Chicago, will soon arrive to take a position with the Orange County Conservatory of Music. Her addition to the faculty will doubtless be a valuable one, judging from the enthusiastic endorsements of her work which Mr. Gustlin has received from professors of the university. Particular interest attaches to Miss Ballew's coming as she is a niece of Rev. and Mrs. Otto Russell.

A special course in children's work under Mrs. Caruthers of Chicago has occupied much of Miss Ballew's summer. She expects, however, to arrive in Santa Ana about the 24th of this month.

Ladies' Aid Meeting

The ladies of the First Christian Church met yesterday afternoon in the parlors of that church with a goodly attendance. Not all of the members of the society have yet returned from their summer outings, but in spite of the rather small attendance, there was hope for this first meeting of the fall; the meeting was very successful. The campaign work for the winter was fairly well outlined as the ladies busied themselves tying two comforts.

Plans were completed for the regular dollar social which will be held at the home of Mrs. Paul E. Wright on Wednesday, September 30.

For Her Birthday

Little Miss Evelyn Metzgar, daughter of Mr. and Mrs. Joseph H. Metzgar, 630 South Sycamore, had a most enjoyable dinner given for her Tuesday evening, the table being graced with a prettily decorated cake on which six candles burned in honor of her birthday. Miss Virginia Metzgar, cousin of the small honoree, was a guest. Dainty gifts were received by the small maiden whose natal day was so pleasantly remembered.

Pupils are enrolling fast now. Better hurry if you want a certain lesson time.

Remember that the High School gives credit for outside music study this year. This will enable many to have musical work that have been deferred from it because of lack of time.

Don't neglect this now, and then regret it all the rest of your life as thousands have done.

504 1/2 N. Main St. Phone 214.

CLUB WOMEN ACTIVE

Mrs. Lawton Reports Meeting at Riverside as Greatly Enthusiastic

Mrs. A. J. Lawton returned last evening from a three days' visit at Riverside, where she presided at a very successful executive board meeting of the southern district, C. F. W. C., held at the Glenwood Mission Inn on Tuesday of this week. In addition to the reports given by the several department chairmen and club presidents who were present, plans for the coming year's work were presented and discussed, as were matters pertaining to the annual district convention to be held at Santa Ana November 1-13.

One report of special interest given was that of Dr. Louise Harvey Clark of Riverside, department chairman of legislation. Dr. Clark called attention to the forty-eight propositions on the ballot for the November election, naming several that need careful consideration. Among those were the "Red Light Abatement Act" and the "Universal Eight-Hour Law." Dr. Clark stated that the times of many of these measures are misleading. An educational campaign along this line will be inaugurated by Dr. Clark, assisted by co-workers in the other five counties in the southern district.

A motion to endorse the peace movement was carried and a pledge given to earnestly work for the same.

The board meeting at Riverside was the third held by Mrs. Lawton since assuming the duties of the presidency of the southern district, the other two being held in the counties of San Diego and Orange. To further the work of the federation Mrs. Lawton plans to hold board meetings in each of the five counties comprising the southern district. The hearty enthusiasm manifested at the Riverside meeting indicates a splendid year's work. The endeavors of the 4004 active club women in the district toward aiding and sustaining all measures pertaining to the welfare of home and county must surely result in a great social and moral uplift. A letter of greeting from the executive board was sent to Mrs. Lillian Pray Palmer, State Federation president, pledging loyalty to the state administration and offering services to aid in the year's work. The social feature of the meeting was a faultlessly served luncheon in the new dining room of the Glenwood Inn. The long table with its festive decorations of brilliant yellow golden glow and greenery made a fit setting for the dainty luncheon, carried out in the same color scheme.

Returns With Bride

When Mr. Ben Barr, head of the manual training department of the Poly High school, went to his home at Vincennes, Indiana, for his summer vacation after the closing of school last June, few if any, knew that he would return a married man. However, Ben Cupid seemed to have been busy, and when Mr. Barr returned here yesterday he brought with him his bride of two weeks. The marriage took place in Tipton, Indiana. Mr. and Mrs. Barr are domiciled at the Colonial.

Guides to Be Her Guests

Mrs. E. V. S. Pomeroy, the gracious leader of the Ladies' Guild of the Church of the Messiah, has issued invitations to the members of the society to be her guests at a 12:30 o'clock luncheon to be served at the Orange County Country Club on September 23. Automobiles will convey the ladies to the club, and doubtless a delightful day will be passed.

Economics Meeting

The third section of Ebell House hold Economics will hold its first meeting after the summer vacation on Friday, September 18, at 2:30 o'clock, at the home of Mrs. W. L. Lelley of Tustin, on Main at the end of Eighth street. Answers to roll call on "Helpful Hints for the Kitchen." The subject will be "Frozen Dainties and Iced Drinks."

Church Picnic

The members of the Home Department of the First Methodist church held their annual picnic yesterday in Birch Park, that favorite spot for all fresco affairs. A picnic dinner at noon, a floral contest in the afternoon and a reading by Rev. F. S. Haughton were features of the day.

Among those who were at the dinner were Mrs. R. P. Winchell, Superintendent of the Department; Mrs. O. H. Huddleston, Mrs. Joan Hart, Mrs. Jane Kellogg, S. J. Warner, F. L. Sexton, Mrs. B. M. Pierce, Miss Mary Marston, Mr. and Mrs. J. A. Beckett, Mr. and Mrs. F. G. Goff, Mrs. T. W. Johnston, Mrs. Mary A. Kellogg, Mrs. Alice F. Fitz and Benjamin C. Smith.

At the Pierce Home

Mrs. J. E. Pierce yesterday afternoon very charmingly and informally entertained the ladies of the Nightingale Club of Tustin, a club of which Mrs. Pierce is a member. The ladies had with them pretty pieces of fancy

Vandermast & Son Boys' Clothiers

work and over the dainty sewing they chatted on various interesting topics of the day. Mrs. Pierce's house guest, Mrs. W. H. Holton, of Long Beach, was a welcome addition to the circle. The Pierce home was inviting with an abundance of fragrant pink carnations arranged artistically in pretty vases. One of these was used as the centerpiece of the charmingly appointed table where delectable refreshments were served late in the afternoon. Those at the table were Mrs. B. F. Nimmo, Mrs. Frank Hoffman, Mrs. A. L. Swarthout, Mrs. Charles Johnson, Mrs. Charles O. Artz of Tustin; Mrs. W. H. Holton and the hostess.

At the Country Club

Entertaining at the Country Club will undoubtedly become a marked feature of the social life of this city, as the charm of location, the ride to and from the inviting clubhouse, and other points of attraction are appealing factors to hostesses and guests alike.

On Tuesday of this week, Mrs. John W. Tubbs was hostess with a small informal bridge luncheon at the Country Club, her guests being Mrs. Jack Porter of Orange, Mrs. Frank Beams, Mrs. Ben Turner and Miss Rosa Boyd of Santa Ana. Mrs. Tubbs took the ladies to the Palisades in her machine.

Embroidery Club Met

Mrs. J. V. Woodside yesterday afternoon entertained the members of an embroidery club to which she belongs. The fascinating embroidery stitches, of particular interest just now as thoughts of the holidays intrude themselves, kept the ladies absorbed through the pleasant hours they were together. Conversation over the needlework interfered not at all with the progress of the sewing.

Mrs. Crowther, Mrs. Wm. Petz, Mrs. Jack Ramsey, Mrs. L. M. Woodside and Mrs. J. C. Smith were Mrs. Woodside's guests, and before they departed cooling refreshments were enjoyed.

Delightful Dancing Party

A dancing party at the Armory last evening with Mr. A. R. Flagg and Mr. J. J. Murphy as hosts was one of the enjoyable events of the early weeks of the social season. The affair was an invitational one, and the guest list embraced friends of the hosts from various points over Southern California, Los Angeles, Pasadena, Fullerton, Anaheim, Orange and Santa Ana being the cities represented.

Over fifty couples participated in the affair, dancing to super-excellent music furnished by the Chapman orchestra, the members of which are Mr. and Mrs. Fred Chapman and the Messrs. Meacham of Fullerton and Jacques of Santa Ana. The Armory floor is unsurpassed for dancing, so all conditions combined for the success of the enjoyable event.

Alliance Ladies Abroad

Members of the Ladies' Alliance of the Unitarian Church of this city and their husbands were the guests of Mrs. C. Gates of Anaheim on Wednesday. A bountiful dinner was served in the garden beneath the shade of a pleasant arbor, where growing plants as well as cut flowers were seen in profusion.

About forty guests were assembled. Several impromptu toasts were given at the close of the dinner, expressing appreciation of Mrs. Gates' generous hospitality and congratulating all who were fortunate in being present.

The regular business of the Alliance was attended to during the afternoon and plans for a bazaar to be held in the Santa Ana church in the near future were discussed. A cordial invitation was extended to all members to

What's Wrong?

Your Eyes? Why? Probably you need glasses. Stop and let us examine your eyes. They may be the cause of your headaches.

Dr. J. R. Wilcox
214 West Fourth St.
Phone 277.

attend the regular meeting at the church on next Wednesday afternoon and take a friend if possible. Work for the bazaar will be taken up.

Many of the ladies were busy with needlework and passed the afternoon in friendly conversation. To add variety to the program, Miss Golds worthy of Santa Ana read a few favorite poems. The hours passed all too quickly and the friends departed with pleasant memories of a happy day, after a cordial invitation from Mrs. Gates to "come again."

Personals

Miss Kassa Bailey was a forenoon visitor in Los Angeles.

Mrs. Kate Montgomery went to Los Angeles this morning to spend a couple of days with her sister, Mrs. Sigler.

Roy Peterson was a business visitor to Los Angeles this forenoon.

Miss Emily Cox boarded a forenoon car bound for Newport Beach today.

Mrs. Walter B. Anthony of San Francisco has been visiting her sister, Mrs. R. E. Miles, for the past week. She left today for her home, traveling via the Governor.

Miss Mamie Wall spent yesterday with her brother, Will Wall, who successfully underwent an operation at the German hospital in Los Angeles last Monday.

Ralph Vawter is another of Santa Ana's ambitious young men. He has gone to Davis, California, where he will enter the agricultural department of the University of California.

Mrs. Eliza Trendle of this city has removed to Anaheim for future residence.

Rev. E. Rudnick and family of San Bernardino, are in Santa Ana to reside. Rev. Mr. Rudnick will minister to the German Lutheran church of this city.

E. F. Roberts is in Bakersfield on business affairs. Miss Bertha Biggs left yesterday for Alamitos where she will teach in the primary department of the Alamitos school.

Mr. and Mrs. Joseph Krock and their son Carl Krock, who have been visiting in Ohio, are reported to have started on their return trip to Santa Ana. They will travel as far as Missouri in their Cole, shipping the automobile to California from that state. Mr. Krock and his son made the journey east in their machine, having a most successful run.

Charles Deaver has gone to Kansas City where he will study law. He is traveling by a northern route and will stop at St. Paul, Minnesota, en route.

Miss Anna Young has reached home from Westerville, New Jersey, and was accompanied by her brother, Carl Cassidy, who will enter school here.

Mrs. D. W. Anderson and her daughter, Miss Helen Anderson, spent today in Los Angeles. Mr. and Mrs. E. L. Tiede of 221 South Sycamore traveled to Los Angeles today. The Tiedes have purchased a lot and are seriously thinking of building here.

Mrs. J. M. Edmiston and Miss Inez Cloyes made a morning trip to Los Angeles, spending the day in the Angel City. Mrs. Edmiston, who is here from Atchison, Kansas, has been a house guest of Mr. and Mrs. M. S. Cloyes, 602 Cypress, for two months, and is so enamored of California that she is much inclined to return to her Kansas home only long enough to pack and ship her household belongings to this sunny Southland. Her friends trust her longing may crystallize into a resolution.

Mr. and Mrs. Arthur Tubbs and son of Pasadena and Mr. and Mrs. Fred Crane of Long Beach, motored over yesterday from that resort for a short visit at the Charles F. Albee home. They returned last night.

Mrs. A. J. Lawton has returned from a three days' visit in Riverside, where she had a most delightful visit.

L. Harry Eldridge, special agent for the Aetna Insurance Company, is a business visitor here today.

Mr. W. H. Smith of Redlands is here visiting Mr. C. M. Gowdy, 2058 North Bush street, formerly of Lowell, N. Y.

Dr. and Mrs. J. E. Paul have re-

AT THE COURTHOUSE
**MITCHELL JURY
FAILED TO
AGREE**

Could Not Reach Verdict in
Automobile Theft Case
Yesterday

The trial of Frank D. Mitchell, accused of stealing an automobile belonging to Hugh Plumb, was finished shortly before 6 o'clock yesterday evening and the case went to the jury. At 9 o'clock last night Judge West dismissed the jury upon their statement that they could not reach an agreement.

Plumb's automobile was taken from in front of the Elks' Club in Santa Ana on the night of April 16, 1913. About a year later the machine was found in the possession of Mitchell in Los Angeles. He was arrested on a charge of grand larceny.

Mitchell's only defense was an alibi. No less than six witnesses testified as to Mitchell's whereabouts at the hour when the theft was alleged to have been committed. These witnesses were: C. A. Capitan, by whom Mitchell was said to be employed; Mrs. Capitan, W. H. Hyatt, Mrs. May Mitchell, wife of the defendant; J. E. White and Mrs. Chutorash, the mother of Mrs. Mitchell. All these witnesses testified that Mitchell was in Los Angeles at the hour when the machine was supposed to have been stolen.

The prosecution had no evidence that Mitchell was in Santa Ana on the night of April 16. However, the defendant, it seems, has never been able to satisfactorily explain how he came to be in possession of the automobile.

The case was set down for a second trial on November 11.
Differences Adjusted
The matter in dispute between Eva

M. Allen, of Los Angeles and J. W. McCormac, of Santa Ana, has been settled out of court and the suit filed by the former dismissed. Their differences, which arose out of a partnership disagreement, have been adjusted to the satisfaction of both parties.

Game Warden's Report
County Game Warden W. K. Robinson today filed with the county clerk his report for the month of August. The report shows that the warden has covered his territory thoroughly, and also indicates that the amount of game killed during the month was small. No arrests were made for violations of the game laws.

Complaint Amended
In the action of Maggie Hapeman against J. P. Hapeman an amended complaint was filed with the county clerk today.

Marriage Licenses
Otto Ohelde, 23, and Clara Harms, 18, both of Orange.

Charles H. Stearns, 40, and Marguerite Louise Bangs, 24, both of Santa Ana.

J. Roy Smith, 29, and Grace Alda Lee, 25, both of Orange.

Notice of Motion
The defendant in the case of the San Pedro Lumber Co. against Fred W. Bean de Zart et al, through their attorney, A. C. Labie, have served notice of motion to substitute the names of John C. Craig and Mary C. Craig for those of John Doe and Richard Roe.

**NEEDHAM WILL NOT
STOP AT SANTA ANA**

It was definitely learned today that J. C. Needham, Republican candidate for Congress, who is to speak at Anaheim tonight, will not stop in Santa Ana. Mr. Needham was due to arrive at Anaheim at 4:04 this afternoon. A number of Republicans and friends of the candidate will go from Santa Ana early this evening and will meet the candidate prior to the hour set for the meeting, which is at 8 o'clock.

Gilbert's opening exhibition Friday and Saturday, this week. Our great fashion display. Beautiful hats, suits, dresses and coats. Take elevator to our modern second floor. Bring your friends. All are welcome.

**RECEIVE FIRST
WALNUTS OF
SEASON**

Local Association Packing
House Opened Doors This
Morning

The first load of walnuts to be received by the Santa Ana Valley Walnut Growers' Association for the 1915 season was delivered this morning by William Henricks from his grove on East First street. Deliveries to the association packing house on East Fourth street were not very heavy this morning, the growers having been notified to hold back on their deliveries owing to the shortage of bleaching material.

Lime Received
However, four barrels of chloride of lime were received by the association today and processing of walnuts will start either tomorrow or Saturday. The four barrels are a part of a consignment of 25 barrels which was contracted for several months ago. The lime was secured at the then current price, \$1.25. Since the beginning of the European war the price of chloride of lime has advanced to \$5 per 100 pounds. A. C. Tiede, secretary of the association, said today that the 25 barrels would in all probability prove sufficient for making ample bleaching material to process the crop to be handled by the association this year.

Splendid Walnuts
Ten different loads were tested as brought in. About ten nuts were taken from one or two sacks of each load and this made a fair test of the quality of walnuts, conditions in various orchards sometimes being widely different.

The walnuts tested this morning showed 97 per cent as having first-class, sound meats. With practically no exception the meats were all white. This test is considered extremely encouraging by the association, as last year conditions were practically reversed, 85 per cent of the nuts having dark, or amber colored meat.

Short Season
The present season, in the estimation of those familiar with the outlook, promises to be extremely short, quite a number of the growers reporting that their crops have been one-half harvested.

Funeral Notice
Funeral services for B. F. Kelley will be held from the residence at 1415 North Bush street, Friday, September 18, 1914, at 10 a. m. Rev. Watry of the Unitarian Church will have charge of the services.

MRS. DIGGS DIVORCED
WOODLAWN, Cal., Sept. 17.—It took just four minutes for the divorce case of Lina Diggs vs. Maury I. Diggs to be settled by Judge N. A. Hawkins after a lengthy conference between the lawyers and parents of the plaintiff and defendant. Mrs. Diggs was granted a divorce decree and the custody of the child and \$40 a month alimony. It is understood that another financial settlement was effected out of court.

GOOD NEWS

Many Santa Ana Readers
Have Heard it and Profited
Thereby

"Good news travels fast," and the back sufferers in Santa Ana are glad to learn where relief may be found. Many a lame, weak and aching back is bad no more, thanks to Doan's Kidney Pills. Our citizens are telling the good news of their experience with this tested remedy. Here is an example worth reading:

R. J. Haines, Fowler House, 206 Ross St., Santa Ana, says: "I had pains through my back and sides. It was hard for me to straighten after stooping. The action of my kidneys was irregular. When I used Doan's Kidney Pills, they made my kidneys normal and stopped the pains."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Haines had. Foster-Milburn Co., Props., Buffalo, N. Y.—Advertisement.

ONE-MINUTE INTERVIEWS
What People Are Talking About

T. A. Alexander: "More real estate men have been coming here this last year," said the genial proprietor of Hotel Rossmore yesterday, "than I ever saw before. When I came here three years ago they joshed me up around Los Angeles by saying 'What—you're going to Santa Ana? Why, man alive, you'll get your hair blown off over there by that gale of wind blowing all the time.'"

"But I said: 'I have made a trip around there for two weeks or more and am not bald-headed yet; and I believe it is good enough as a permanent camp for me.' And I have been noticing during recent months that the Los Angeles papers are not trying to put over any more knocks on Santa Ana or Orange county. We are proving to be pretty good neighbors; and they are finding out that it is not so bad to play in our yard and slide down our cellar door once in a while! It was fine sport for me when the very man who joshed me the worst about Santa Ana came along to stay with me a while back when he put through a deal; and I helped him in the negotiations. But say! How I did roast him back for what he handed me three years ago! The chance to even things up was too good to lose."

George B. Brewer: "Since the news has gotten around the county of our equipment here," said G. B. Brewer of the Santa Ana Welding Works, "the garage and automobile owners are saved many vexatious hours of waiting to have serious up-keep repairs and difficult brazing done right."

"It just goes to show that I made no mistake in locating in Santa Ana after gaining valuable experience in Los Angeles and elsewhere to master all the fine points of the trade. These times are certainly requiring mechanics to specialize; and in our place we are doing our best every day to serve this community with such faultless work that no bent, cracked, twisted or shattered casting or metal part of any description needs to be sent out of this town. Our motto is that experience, skill and best facilities, with prompt service, gives best results; and the way work is coming into our shop from all over it looks as if we are in Santa Ana to stay because we are needed here."

NOTICE TO WALNUT GROWERS.
—Walnut growers who desire to join the Walnut Growers' Association of Santa Ana, can do so by calling at the office of the association.

The office is now open.
Members will be received for a short time only as the books will be closed soon.
A. C. TIEDE, Sec'y.

We have a splendid assortment of the new buckram shapes and our workroom is prepared to make over any materials you may have on hand. Bring in your materials and have them made up in the latest fashions. The Misses Rutherford, 109 East Fourth St.

**ENROLLMENT IN N. Y.
SCHOOLS IS 750,000**

NEW YORK, Sept. 17.—Enrollment of public school children for the sessions just opened was 750,000, or 30,000 more than last year, according to a statement by President Churchill of the Board of Education. Of the total number of pupils this year the statement says that less than 46,000 will be on part time, as compared to 89,890 the first week of the fall term last year.

Green Gooseberry Pudding
This may be made the same as rhubarb pudding with a suet paste, and boiled, steamed, or made in a deep pie dish with good ordinary pie paste with a little cornstarch mixed with the sugar to thicken the juice. When the gooseberry filling is thick enough to support the mixture, lift off the crust and pour in a layer of cornstarch custard cooked in a double-boiler. The whites of the eggs reserved for a meringue to cover the top. The top crust may be served at another meal spread with canned peaches or pears. Or instead of a top crust, cover the dish with another pie dish until the gooseberries are done. Another way is to replace the top crust and return pie to the oven until the custard mixture is cooked quite firm. The pie is then served cold with upper crust, without a meringue.

To Clean Mother-of-Pearl
Mother-of-pearl articles that have become dull and blurred may be restored by cleaning them with pure olive oil, then applying the ordinary nail-brush and rubbing with chamolis.

STATE INSPECTOR EXAMINES PLANTS

Orange News: Howard L. Boyd, representative of the State Industrial Accident Commission, visited Orange today on a trip of inspection through business establishments, machine shops, factories, garages and other places where machinery is used.

In discussing his errand, Mr. Boyd stated that the commission was actively engaged in improving conditions with a view of lessening the

number of accidents by enforcing precautionary measures, working under the belief that out of more than ten thousand accidents in the state last year 50 per cent could have been avoided through the exercise of proper caution.

Mr. Boyd stated, further, that he finds conditions generally in rather poor shape, principally through a lack of understanding of the requirements. This he considers only natural, and the aim of the commission, he says, is to improve matters through co-operation with the shop owners rather than by any "big stick" methods.

DEER SEASON LAST RATHER SLOW BOUT FOR SEPT. 30

Only Three or Four Bucks Were Killed in Santa Ana Mountains

MANY HUNTERS HAVE HARD LUCK STORIES

Scarcity of Deer Proves Wisdom of Establishing Game Preserve

This has been rather a slow deer season, so far as results were concerned for those who went to bag a buck in the Santa Ana mountains. While three of the four bucks reported killed in the Santa Ana mountains were extra fine deer for the Santa Ana mountains, the scarcity of the animals indicates the wisdom of the establishment of the game preserve.

There were plenty of hunters out this year, but with the game preserve limiting their activities hunters as a rule returned with nothing but hard luck stories to tell.

It is rather a noticeable fact that all of the bucks reported killed this season in the nearby mountains were killed by mountaineers, men who live in the mountains or are thoroughly familiar with them.

It would not be a deer season at all unless Ed Adkinson of Trabuco got at least one deer. He is a "wig" with a rifle, and while there may be two or three fellows in the county who are his equal when it comes to stirring up a buck where no one else can find one, there are none who are superior.

He killed the finest buck brought down in this county in many a year. It was a handsome six-point. The mounted head is now on display at Hill and Walker's sporting goods store.

Russell Adkinson, son of Ed, also got a fine buck. His was a three-pointer. Jerry Schultz, who has a ranch in Williams Canyon, landed a three-pointer.

Last week Forest Ranger Stephenson of El Toro and Fire Guard John Rhoades, who has been at San Juan Hot Springs for the summer, routed out a spike near Andrew Joplin's bee ranch in the San Juan Hot Springs Canyon. They both shot at the animal, both hit him, and each man is certain he did the killing. They spit the deer.

The season closed on the 15th. Other bucks may have been killed in the mountains. There was a story out that some one brought part of a deer into the Hot Springs, but investigation failed to show whether or not a buck or a doe or a sheep or a goat had been killed.

The last open day Jim Sleeper killed a two-point buck in Bell Canyon.

Early this season Clarence James, section boss at El Toro, killed a spike buck having a 14-inch horn.

It was learned today that two deer were brought down in Hot Springs Canyon, one by a Los Angeles man and one by an Anaheim man.

Athletic Club Plans Boxing Show Extraordinary; Fast Mills Scheduled

THIRD MEETING FOR ART REED, KID BURNS

Match Assured Between Heinrichs, Anaheim, and Taylor, Huntington Beach

A smoker and boxing show extraordinary will be the next attraction offered by the Santa Ana Athletic Club and will be staged Wednesday evening, September 30. This show will be one of the best ever attempted in the four-round game and will bring together some of the fastest and best boys in the game.

The main event will bring Jimmy Lastra and "Fighting" Lee of Los Angeles together at 120 pounds. These boys have already met in six engagements and as yet have had difficulty in determining who is master. They have a reputation that speaks for itself, having appeared in the preliminaries at Vernon four times in less than six months.

In the semi-windup Kid Burns of Denver and Art Reed of Brea will come together for their third meeting. In the former contests Burns received the decision once, while the other was a draw. Reed, who is the idol of the oil fields, has a large following of enthusiasts who hope to see him defeat the tough Denverite in the coming match.

The match between Dutch Heinrichs of Anaheim and Otis Taylor of Huntington Beach has at last been landed. Forfeits have been posted for the weight—148 pounds ringside—and both boys are hard at their training. This will be the second meeting of these boys, Heinrichs receiving the decision the previous fight. Taylor and his following are of the opinion that in a return match the record of the past will be reversed and are sparing nothing that will lead to this end.

In the preliminaries Oran Snodgrass will tie up with Kid Sharkey of Denver for a four-round boxing fest, while "Battling" Babe and Hans Wagner will come together in a barrel boxing stunt at 185 pounds. These boys, who are Santa Ana's most promising "white hopes," are out for blood and should prove real laugh producers.

The curtain raiser will be between the two most popular little boys in the ring, Kid Glassy and the Philadelphia Kid, at 45 pounds. These boys, who appeared here once before, gave one of the finest exhibitions ever seen in the club gym and for this reason together with many requests for a return match from the fans, are being put on for a second meeting.

There will be another out added to the above list and will probably be between Joe Acuna of San Gabriel and a prominent Los Angeles boxer. The complete card together with other information will appear in next week's pink sheet.

Orange County's Landmarks from Studebaker "Six" Natural Scenic Highways form the Motorist's Paradise

Above, Studebaker "Six" at Mission San Juan Capistrano, the most pretentious of all the missions. Pleasure party in 1915 model at Orange County Park. Map showing some of the Orange County good roads system. Below, Studebaker party visits famous ruins, in San Juan Canyon on road to San Juan Hot Springs.

Merry War of Anglers Doth Wax Piping Hot

When Dr. M. A. Patton came forth several weeks ago with "heinous" charge that Victor Walker, while fishing on the "9-9" one Sunday, had used a No. 68 handline with which to haul in fish, Walker said nothing, but sawed wood.

Walker was absolutely certain that it was not due to his clumsiness that he lost 300 yards of No. 9 line. He was sure that the loss of the fishing twine was due to a flaw in the make-up of the tackle. Convinced of this, Walker sent 300 yards of the very same kind of line he had used on the fatal Sunday to the William H. Hoegge Company in Los Angeles to be tested.

Lo, and behold, yesterday Walker was vindicated of the charge that, due to his unskillfulness, he had been forced to fish one Sunday, with a No. 68 handline after he had lost his No. 9.

For the Hoegge Company returned a sample of the line to Walker with a certificate stating that there were flaws in the line.

As a result of this Walker has perked up considerably since then. He has resumed his customary stately demeanor.

This war between Walker and "Doc" Patton promises to develop into quite a piping little diversion.

A week ago Wednesday "Doc" Howard Turner, Commodore Beard and a man from Los Angeles went down to Newport Beach with the avowed intention of putting in a splendid and salubrious day fishing on the "9-9". The fishermen arrived at the beach town at 6:30 in the morning. Imagine their chagrin when they found that the launch was miles away from Newport! It had been taken out by the two Newport fishermen who take care of the launch when it is not used by

the Santa Ana aristocrats of the fishing game.

The result was that all the four disgruntled anglers could do was to sit and gaze out over the boundless ocean in the direction in which the "9-9" had disappeared. They stayed on the pier until 3 o'clock in the afternoon, at which time the launch showed up.

Now the point of this whole story is that "Doc" and the other three were cheated out of their day's fishing on the Wednesday following the appearance in the Register of the dark tale which related, with all the gossamer details, how Walker had lost the 300 yards of No. 9 line and had done the remainder of his day's fishing with a No. 68 cable.

The reader, knowing the ancient rivalry that exists between "Doc" and Walker will readily understand that the story never appeared in the Pink at the instigation of Walker.

Therefore, it will be at once understood that when "Doc" and his companions arrived at Newport a week ago Wednesday and found that the "9-9" had already put to sea, the black finger of suspicion at once pointed to Walker. Who but Walker would have done so flimsy a trick as to put the care-takers of the launch wise to abduct the "9-9" and thereby cheat "Doc" and the others out of their day's diversion?

Walker swears that he had absolutely nothing to do with the temporary disappearance of the launch. In spite of the fact that Walker has denied all knowledge of the matter "Doc" has not put in an appearance at the Hill & Walker rendezvous for fishermen and hunters since the Wednesday in question. Because of this anyone can un-

derstand that "Doc" remains convinced that Walker had a digit in the custard.

A vague rumor in connection with all this has it that on the day following the Wednesday when "Doc" did not go fishing, a newspaper reporter, scenting a first-class story, called at the office of the said "Doc". The same rumor has it that immediately after the reporter entered "Doc's" sanctum, a terrible commotion was heard going on within. Shortly after the door burst violently open and the unfortunate newspaperman made a somewhat violent and precipitate getaway down stairs. But of course this is only a rumor.

Moral: Stop, look and listen before you definitely decide to become a deep-sea welder of light tackle, for the path of the angler is beset with many thorns.

FRESHMEN TRY OUT FOR U. S. C. TEAM

Ralph Glaze gave the Freshmen at U. S. C. a "red hot" talk at noon yesterday.

The showing of the Freshmen the day previous was rather disappointing. Only a few showed up for practice.

Warren Boyard says some of them were not ready to come out and not enough uniforms had been provided. A larger number showed up for practice yesterday and Glaze had his hands full with the varsity and Freshmen candidates.

FORD SERVICE STATION RECENTLY ESTABLISHED

The Ford Sales & Service Company, local agents for Ford automobiles, have recently established service stations at ten different points in Orange County where a limited supply of Ford parts can be obtained.

The service stations are as follows: Orange, El Modena, Olive, Laguna Beach, Balboa, Newport Beach, El Toro, Capistrano and Tustin.

COMMERCIALISM IS ROBBING BASEBALL OF POPULAR FAVOR

From all over the country, from minor leagues, have come complaints that attendance at baseball games this year has dwindled—dwindled—starting to those who are responsible for financing the game. There seems abundant evidence that the game is losing popular favor. The reason is not hard to find. Commercialism has crept in, and has divested the game of much of its charm for those who are keen for straightaway sports.

It began by a sordid display of commercialism on the part of managers and magnates. Then the commercializing spirit infected the players. The result is, lack of homogeneity in baseball teams. Players are bought and sold, or barter themselves, right and left. They have made their playing utterly devoid of sentiment. The "fans" mix considerable sentiment in their interest in the game. They want a team of stability—they want players who will stick with a team throughout the season. Then they can idolize the team and the individual players. But if an idol player is with the home team today and farms himself out to another team tomorrow, sentiment is knocked clear out of the game and the "fans" are disgusted.

Many Trunks Will Be Packed with in the next two or three weeks by students starting away to school. Attention is called to our fine line of trunks at popular prices—\$6.50 to \$20. No better trunk values can be found anywhere. Horton-Spurgeon Furniture Company.

POLY FOOTBALL BEGINS TO PICK UP

Crimson and White Gridiron Ready for Work by Next Week

NEW UNIFORMS FOR PIGSKIN WARRIORS

Make-Up of Poly's First Team Still Uncertain; Many Names Suggested

Football stock down at Poly High should begin to pick up. Manager "Dutch" Holtzgraf expects to have the field ready for work for next week, which will give the boys a more even start with the other teams of the league.

It is proposed to fit the team out better than ever this year. New outfits will be gotten for the "regulars" and the old suits turned over to the "seconds." This will be the first time the second "string" men have not had to furnish their own outfits. This should bring out a lot of new men and make the fight for position on both teams hotter.

Games will be arranged with the second teams of Long Beach, Pasadena and other schools to give the Poly seconds something to fight for.

As to the make-up of the first team one guess is as good as another. That it will be a new team is certain. But three or last year's regulars—"Dutch," "Little Spud" and Burkett—will be available. Of the near-regulars there will be Catland, McClain, Jos Irvine, Geo. Faul, "Trabuco Mike" Robinson, estigate, Lee Brown and possibly a few others of last year's squad.

Of the new men "Bill" Wagner, center on the second team of two years ago, will make a fight for center if in school. Covington, the Biggs brothers, and a lot of others should be heard from. Some of last year's intermediate team will be in school and will make hard fights for positions.

Every rooster is anxious for the opening to see what new material will show up.

A conference meeting will be held in Los Angeles soon to decide questions of eligibility, officials, interpretation of rules, etc.

Over at the other high school football is the talk. Whittier High already has had a week of practice, San Diego the same, while Pasadena is getting busy, too. Coach Shutt at Chaffee Union has a squad of 50 working, with some of last year's men out for positions.

All this will make little difference though, except in the earliest games.

Among the colleges U. S. C. has had the jump in practice, but Occidental and Whittier, with their veteran teams, will be hard contenders. Just now it looks as though Whittier would be hard to beat with a back field stronger than last year and a line fifteen and twenty pounds heavier.

FORD CARS NUMEROUS IN RUSSIAN WARFARE

FORD, Ont., Sept. 17.—With all Russia united as never before in any war, the huge task of hurriedly mobilizing and moving her vast armies fell in no small measure on the Ford automobiles, if one may judge from the part this sturdy car played in the maneuvers held by the Czar's troops during the past year or two. In the sham conflicts, Fords were put to almost every conceivable use, and last season near Peterhof, the generals of the imperial staff were carried from point to point in eight Ford cars.

The armies have found that automobiles will go every place a horse has been asked to go, to some where horses cannot go, no matter what the clatter or how many bombs burst about them.

Many regiments have previously been equipped with Fords, while upon the declaring of war, entire stocks of autos at distributing points in the large cities were commandeered by the government forces.

Pleasure cars are being pressed into use for dispatching patrols and signal corps and such small bodies of troops as well as transporting the officers. Some are equipped for wireless service in the field, for hospital service and for carrying ammunition and various smaller munitions of war.

Two grand dukes and nineteen Russian princes own Fords. The president of the Douma, Prince Volkonsky, has three, and the secret police, palace guards, and government officials all use "the universal car."

Thirty-two per cent of all the cars in the entire empire are Fords.

Po-Do-Lax Banishes Pimples, Bad Blood, Itchiness, Eruptions, Eczema, Tired Liver, Constipation, etc. from Indigestion. Take Po-Do-Lax, the pleasant and absolutely pure Laxative, and you won't suffer from a deranged stomach or other troubles. It will tone up the liver and purify the blood. Use it regularly and you will stay well, have clear complexion and steady nerves. Get a 50c bottle today. Money back if not satisfied. All Druggists—Advertisement.

ENLIGHTEN PUBLIC ON GREAT NEED OF GAME PROTECTION

The California Fish and Game Commission, believing that education as to the necessity and value of game protection and preservation is a more efficient means of conserving the state's game than police patrol, has inaugurated a bureau of research and publicity. Dr. Harold C. Bryant of the University of California has been placed in charge of the new work. The function of this bureau will be to find ways and means of protecting and preserving foreign and domestic game birds within the state and to dispense information relative to game by means of correspondence, public illustrated lectures, and by the issuance of bulletins dealing with the status of game. A study also will be made of the habits, habits and breeding seasons of the different game birds and mammals of the state so that a basis for sane game laws may be afforded.

Laws and police measures, though necessary, are not so effective for the preservation of game as an enlightened public sentiment. This new move of the commission will hasten the day when a large force of wardens, making hundreds of arrests yearly, will be unnecessary.

AT THE COURTHOUSE
**MITCHELL JURY
FAILED TO
AGREE**
Could Not Reach Verdict in
Automobile Theft Case
Yesterday

The trial of Frank D. Mitchell, accused of stealing an automobile belonging to Hugh Plumb, was finished shortly before 6 o'clock yesterday evening and the case went to the jury. At 9 o'clock last night Judge West dismissed the jury upon their statement that they could not reach an agreement.

Plumb's automobile was taken from in front of the Elks' Club in Santa Ana on the night of April 16, 1913. About a year later the machine was found in the possession of Mitchell in Los Angeles. He was arrested on a charge of grand larceny.

Mitchell's only defense was an alibi. No less than six witnesses testified as to Mitchell's whereabouts at the hour when the theft was alleged to have been committed. These witnesses were: C. A. Capitan, by whom Mitchell was said to be employed; Mrs. Capitan, W. H. Hyatt, Mrs. May Mitchell, wife of the defendant; J. E. White and Mrs. Chutorash, the mother of Mrs. Mitchell. All these witnesses testified that Mitchell was in Los Angeles at the hour when the machine was supposed to have been stolen.

The prosecution had no evidence that Mitchell was in Santa Ana on the night of April 16. However, the defendant, it seems, has never been able to satisfactorily explain how he came to be in possession of the automobile.

The case was set down for a second trial on November 11.

Differences Adjusted
The matter in dispute between Eva

M. Allen, of Los Angeles and J. W. McCormac, of Santa Ana, has been settled out of court and the suit filed by the former dismissed. Their differences, which arose out of a co-partnership disagreement, have been adjusted to the satisfaction of both parties.

Game Warden's Report
County Game Warden W. K. Robinson today filed with the county clerk his report for the month of August. The report shows that the warden has covered his territory thoroughly, and also indicates that the amount of game killed during the month was small. No arrests were made for violations of the game laws.

Complaint Amended
In the action of Maggie Hapeman against J. P. Hapeman an amended complaint was filed with the county clerk today.

Marriage Licenses
Otto Ohelde, 23, and Clara Harms, 18, both of Orange.

Charles H. Stearns, 40, and Marguerite Louise Bangs, 24, both of Santa Ana.

J. Roy Smith, 29, and Grace Alda Lee, 25, both of Orange.

Charles Richard Garrigan, 21, of Fullerton, and Alice Ellen Stanley, 20, of Redondo Beach.

Notice of Motion
The defendant in the case of the San Pedro Lumber Co. against Fred W. Beau de Zart et al, through their attorney, A. C. Labie, have served notice of motion to substitute the names of John C. Craig and Mary C. Craig for those of John Doe and Richard Roe.

NEEDHAM WILL NOT STOP AT SANTA ANA
It was definitely learned today that J. C. Needham, Republican candidate for Congress, who is to speak at Anaheim tonight, will not stop in Santa Ana. Mr. Needham was due to arrive at Anaheim at 4:04 this afternoon. A number of Republicans and friends of the candidate will go from Santa Ana early this evening and will meet the candidate prior to the hour set for the meeting, which is at 8 o'clock.

Gilbert's opening exhibition Friday and Saturday, this week. Our great fashion display. Beautiful hats, suits, dresses and coats. Take elevator to our modern second floor. Bring your friends. All are welcome.

**RECEIVE FIRST
WALNUTS OF
SEASON**
Local Association Packing
House Opened Doors This
Morning

The first load of walnuts to be received by the Santa Ana Valley Walnut Growers' Association for the 1915 season was delivered this morning by William Henecks from his grove on East First street. Deliveries to the association packing house on East Fourth street were not very heavy this morning, the growers having been notified to hold back on their deliveries owing to the shortage of bleaching material.

Lime Received
However, four barrels of chloride of lime were received by the association today and processing of walnuts will start either tomorrow or Saturday. The four barrels are a part of a consignment of 25 barrels which was contracted for several months ago. The lime was secured at the then current price, \$1.25. Since the beginning of the European war the price of chloride of lime has advanced to \$5 per 100 pounds. A. C. Tiede, secretary of the association, said today that the 25 barrels would in all probability prove sufficient for making ample bleaching material to process the crop to be handled by the association this year.

Splendid Walnuts
Ten different loads were tested as brought in. About ten nuts were taken from one or two sacks of each load and this made a fair test of the quality of walnuts, conditions in various orchards sometimes being widely different.

The walnuts tested this morning showed 97 per cent as having first-class, sound meats. With practically no exception the meats were all white. This test is considered extremely encouraging by the association, as last year conditions were practically reversed, 85 per cent of the nuts having dark, or amber colored meat.

Short Season
The present season, in the estimation of those familiar with the outlook, promises to be extremely short, quite a number of the growers reporting that their crops have been one-half harvested.

Funeral Notice
Funeral services for B. F. Kelley will be held from the residence at 1415 North Bush street, Friday, September 18, 1914, at 10 a. m. Rev. Watry of the Unitarian Church will have charge of the services.

MRS. DIGGS DIVORCED
WOODLAWN, Cal., Sept. 17.—It took just four minutes for the divorce case of Lina Diggs vs. Maury I. Diggs to be settled by Judge N. A. Hawkins after a lengthy conference between the lawyers and parents of the plaintiff and defendant. Mrs. Diggs was granted a divorce decree and the custody of the child and \$40 a month alimony. It is understood that another financial settlement was effected out of court.

ONE-MINUTE INTERVIEWS
What People Are Talking About

T. A. Alexander: "More real estate men have been coming here this last year," said the genial proprietor of Hotel Rossmore yesterday. "than I ever saw before. When I came here three years ago they joshed me up around Los Angeles by saying 'What—you're going to Santa Ana! Why, man alive, you'll get your hair blown off over there by that gale of wind blowing all the time.'"

"But I said: 'I have made a trip around there for two weeks or more and am not bald-headed yet; and I believe it is good enough as a permanent camp for me.' And I have been noticing during recent months that the Los Angeles papers are not trying to put over any more knocks on Santa Ana or Orange county. We are proving to be pretty good neighbors; and they are finding out that it is not so bad to play in our yard and slide down our cellar door once in a while! It was fine sport for me when the very man who joshed me the worst about Santa Ana came along to stay with me a while back when he put through a deal; and I helped him in the negotiations. But say! How I did roast him back for what he handed me three years ago! The chance to even things up was too good to lose."

George B. Brewer: "Since the news has gotten around the county of our equipment here," said G. B. Brewer of the Santa Ana Welding Works, "the garage and automobile owners are saving many vexatious hours of waiting to have serious up-keep repairs and difficult brazing done right."

"It just goes to show that I made no mistake in locating in Santa Ana after gaining valuable experience in Los Angeles and elsewhere to master all the fine points of the trade. These times are certainly requiring mechanics to specialize; and in our place we are doing our best every day to serve this community with such faultless work that no bent, cracked, twisted or shattered casting or metal part of any description needs to be sent out of this town. Our motto is that experience, skill and best facilities, with prompt service, gives best results; and the way work is coming into our shop from all over it looks as if we are in Santa Ana to stay because we are needed here."

GOOD NEWS
Many Santa Ana Readers
Have Heard it and Profited
Thereby

"Good news travels fast," and the back sufferers in Santa Ana are glad to learn where relief may be found. Many a lame, weak and aching back is bad no more, thanks to Doan's Kidney Pills. Our citizens are telling the good news of their experience with this tested remedy. Here is an example worth reading:

R. J. Haines, Fowler House, 206 Ross St., Santa Ana, says: "I had pains through my back and sides. It was hard for me to straighten after stooping. The action of my kidneys was irregular. When I used Doan's Kidney Pills, they made my kidneys normal and stopped the pains."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Haines had. Foster-Milburn Co., Props., Buffalo, N. Y.—Advertisement.

NOTICE TO WALNUT GROWERS
—Walnut growers who desire to join the Walnut Growers' Association of Santa Ana, can do so by calling at the office of the association.

The office is now open.

Members will be received for a short time only as the books will be closed soon.

A. C. TIEDE, Sec'y.

We are showing a large line of the newest styles in tailored hats at \$5.00, including some of the smartest of the new fall turbans. We have a splendid assortment of the new buckram shapes and our workroom is prepared to make over any materials you may have on hand. Bring in your materials and have them made up in the latest fashions. The Misses Rutherford, 109 East Fourth St.

ENROLLMENT IN N. Y. SCHOOLS IS 750,000

NEW YORK, Sept. 17.—Enrollment of public school children for the sessions just opened was 750,000, or 30,000 more than last year, according to a statement by President Churchill of the Board of Education. Of the total number of pupils this year the statement says that less than 40,000 will be on part time, as compared to 39,890 the first week of the fall term last year.

Green Gooseberry Pudding
This may be made the same as rhubarb pudding with a suet paste, and boiled, steamed, or made in a deep pie dish with good ordinary pie paste with a little cornstarch mixed with the sugar to thicken the juice. When the gooseberry filling is thick enough to support the mixture, lift off the crust and pour in a layer of custard custard cooked in a double-boiler. The whites of the eggs reserved for a meringue to cover the top. The top crust may be served at another meal spread with canned peaches or pears. Or instead of a top crust, cover the dish with another pie dish until the gooseberries are done. Another way is to replace the top crust and return pie to the oven until the custard mixture is cooked quite firm. The pie is then served cold with upper crust, without a meringue.

To Clean Mother-of-Pearl
Mother-of-pearl articles that have become dull and blurred may be restored by cleaning them with pure olive oil, then applying the ordinary nail-brush and rubbing with chamois.

**STATE INSPECTOR
EXAMINES PLANTS**

Orange News: Howard L. Boyd, representative of the State Industrial Accident Commission, visited Orange today on a trip of inspection through business establishments, machine shops, factories, garages and other places where machinery is used.

In discussing his errand, Mr. Boyd stated that the commission was actively engaged in improving conditions with a view of lessening the

number of accidents by enforcing precautionary measures, working under the belief that out of more than ten thousand accidents in the state last year 50 per cent could have been avoided through the exercise of proper caution.

Mr. Boyd stated, further, that he finds conditions generally in rather poor shape, principally through a lack of understanding of the requirements. This he considers only natural, and the aim of the commission, he says, is to improve matters through co-operation with the shop owners rather than by any "big stick methods."

—Dr. J. W. Shaul, 417 Hollingsworth Bldg., Los Angeles, in Santa Ana office Wednesday and Saturday afternoons, 1 until 7:30 p. m. Eye, ear, nose, throat and fitting glasses.

Good Word for Religion
This is a broad minded age, and the gentleman on the last tram, who was in what one may define as the talkative stage, shared the characteristics of the times. "I've nothin' to say against 'im even if he does belong to a P. S. A. I'm no bigot, not a bit of it. An' I say this—that, considerin' all things, I've not found these religious chaps to be worse than ordinary fellers like you an' me."—Manchester Guardian.

SANTA ANA, CALIFORNIA, THURSDAY EVENING, SEPTEMBER 17, 1914.

DEER SEASON LASTRO-LEE RATHER SLOW BOUT FOR SEPT. 30

Only Three or Four Bucks Were Killed in Santa Ana Mountains

MANY HUNTERS HAVE HARD LUCK STORIES

Scarcity of Deer Proves Wisdom of Establishing Game Preserve

This has been rather a slow deer season, so far as results were concerned for those who went to bag a buck in the Santa Ana mountains.

There were plenty of hunters out this year, but with the game preserve limiting their activities hunters as a rule returned with nothing but hard luck stories to tell.

It is rather a noticeable fact that all of the bucks reported killed this season in the nearby mountains were killed by mountaineers, men who live in the mountains or are thoroughly familiar with them.

It would not be a deer season at all unless Ed Adkinson of Trabuco got at least one deer. He is a 'wig' with a rifle, and while there may be two or three fellows in the county who are his equal when it comes to stirring up a buck where no one else can find one, there are none who are superior.

He killed the finest buck brought down in this county in many a year. It was a handsome six-point. The mounted head is now on display at Hill and Walker's sporting goods store.

Russell Adkinson, son of Ed, also got a fine buck. His was a three-pointer. Jerry Schultz, who has a ranch in Williams Canyon, landed a three-pointer.

Last week Forest Ranger Stephenson of El Toro and Fire Guard John Rhoades, who has been at San Juan Hot Springs for the summer, routed out a spike near Andrew Joplin's bee ranch in the San Juan Hot Springs Canyon. They both shot at the animal, both hit him, and each man is certain he did the killing. They spit the deer.

The season closed on the 15th. Other bucks may have been killed in the mountains. There was a story out that some one brought part of a deer into the Hot Springs, but investigation failed to show whether or not a buck or a doe or a sheep or a goat had been killed.

The last open day Jim Sleeper killed a two-point buck in Bell Canyon.

Early this season Clarence James, section boss at El Toro, killed a spike buck having a 14-inch horn.

It was learned today that two deer were brought down in Hot Springs Canyon, one by a Los Angeles man and one by an Anaheim man.

Athletic Club Plans Boxing Show Extraordinary; Fast Mills Scheduled

THIRD MEETING FOR ART REED, KID BURNS

Match Assured Between Heinrichs, Anaheim, and Taylor, Huntington Beach

A smoker and boxing show extraordinary will be the next attraction offered by the Santa Ana Athletic Club and will be staged Wednesday evening, September 30. This show will be one of the best ever attempted in the four-round game and will bring together some of the fastest and best boys in the game.

The main event will bring Jimmy Lastro and Fighting Lee of Los Angeles together at 120 pounds. These boys have already met in six engagements and as yet have had difficulty in determining who is master. They have a reputation that speaks for itself, having appeared in the preliminaries at Vernon four times in less than six months.

In the semi-windup Kid Burns of Denver and Art Reed of Brea will come together for their third meeting. In the former contests Burns received the decision once, while the other was a draw. Reed, who is the idol of the oil fields, has a large following of enthusiasts who hope to see him defeat the tough Denverite in the coming match.

The match between Dutch Heinrichs of Anaheim and Otis Taylor of Huntington Beach has at last been landed. Forfeits have been posted for the weight—148 pounds ringside—and both boys are hard at their training. This will be the second meeting of these boys, Heinrichs receiving the decision the previous fight. Taylor and his following are of the opinion that in a return match the record of the past will be reversed and are sparing nothing that will lead to this end.

In the preliminaries Oran Snodgrass will tie up with Kid Sharkey of Denver for a four-round boxing test, while "Battling Babe" and Hans Wagner will come together in a barrel boxing stunt at 185 pounds. These boys, who are Santa Ana's most promising "white hopes," are out for blood and should prove real laugh producers.

The curtain raiser will be between the two most popular little boys in the ring, Kid Glassy and the Philadelphia Kid, at 45 pounds. These boys, who appeared here once before, gave one of the finest exhibitions ever seen in the club gym and for this reason together with many requests for a return match from the fans, are being put on for a second meeting.

There will be another out added to the above list and will probably be between Joe Acuna of San Gabriel and a prominent Los Angeles boxer. The complete card together with other information will appear in next week's pink sheet.

Merry War of Anglers Doth Wax Piping Hot

When Dr. M. A. Patton came forth several weeks ago with the heinous charge that Victor Walker, while fishing on the "9-9" one Sunday, had used a No. 68 headline with which to haul in fish, Walker said nothing, but sawed wood.

Walker was absolutely certain that it was not due to his clumsiness that he lost 300 yards of No. 9 line. He was sure that the loss of the fishing twine was due to a flaw in the make-up of the tackle. Convinced of this, Walker sent 300 yards of the very same kind of line he had used on the fatal Sunday to the William H. Hoogee Company in Los Angeles to be tested. Lo, and behold, yesterday Walker was vindicated of the charge that, due to his unskillfulness, he had been forced to fish, one Sunday, with a No. 68 headline after he had lost his No. 9.

For the Hoogee Company returned a sample of the line to Walker with a certificate stating that there were flaws in the line.

As a result of this Walker has perked up considerably since then. He has resumed his customary stately demeanor.

This war between Walker and "Doc" Patton promises to develop into quite a piping little diversion.

A week ago Wednesday "Doc" Howard Turner, Commodore Beard and a man from Los Angeles went down to Newport Beach with the avowed intention of putting in a splendid and salubrious day fishing on the "9-9." The fishermen arrived at the beach town at 6:30 in the morning. Imagine their chagrin when they found that the launch was miles away from Newport! It had been taken out by the two Newport fishermen who take care of the launch when it is not used by

the Santa Ana aristocrats of the fishing game.

The result was that all the four disgruntled anglers could do was to sit and gaze out over the boundless ocean in the direction in which the "9-9" had disappeared. They stayed on the pier at Newport until 3 o'clock in the afternoon, at which time the launch showed up.

Now the point of this whole story is that "Doc" and the other three were cheated out of their day's fishing on the Wednesday following the appearance in the Register of the dark tale which related, with all the gruesome details, how Walker had lost the 300 yards of No. 9 line and had done the remainder of his day's fishing with a No. 68 cable.

The reader, knowing the ancient rivalry that exists between "Doc" and Walker will readily understand that the story never appeared in the Pink at the instigation of Walker.

Therefore, it will be at once understood that when "Doc" and his companions arrived at Newport a week ago Wednesday and found that the "9-9" had already put to sea, the black finger of suspicion at once pointed to Walker.

Who but Walker would have done so fiendish a trick as to put the care-takers of the launch wise to abduct the "9-9" and thereby cheat "Doc" and the others out of their day's diversion?

Walker swears that he had absolutely nothing to do with the temporary disappearance of the launch. In spite of the fact that Walker has denied all knowledge of the matter "Doc" has not put in an appearance at the Hill & Walker rendezvous for fishermen and hunters since the Wednesday in question. Because of this anyone can un-

derstand that "Doc" remains convinced that Walker had a digit in the custard.

A vague rumor in connection with all this has it that on the day following the Wednesday when "Doc" did not go fishing, a newspaper reporter, scenting a first-class story, called at the office of the said "Doc." The same rumor has it that immediately after the reporter entered "Doc's" sanctum, a terrible commotion was heard going on within. Shortly after the door burst violently open and the unfortunate newspaperman made a somewhat violent and precipitate getaway down stairs. But of course this is only a rumor.

"Moral: Stop, look and listen before you definitely decide to become a deepsea wielder of light tackle, for the path of the angler is beset with many thorns.

FRESHMEN TRY OUT FOR U. S. C. TEAM

Ralph Glaze gave the Freshmen at U. S. C. a "red hot" talk at noon yesterday.

The showing of the Freshmen the day previous was rather disappointing. Only a few showed up for practice.

Warren Bovard says some of them were not ready to come out and not enough uniforms had been provided.

A larger number showed up for practice yesterday and Glaze had his hands full with the varsity and Freshmen candidates.

FORD SERVICE STATION RECENTLY ESTABLISHED

The Ford Sales & Service Company, local agents for Ford automobiles, have recently established service stations at ten different points in Orange county where a limited supply of Ford parts can be obtained.

The service stations are as follows: Orange, El Modena, Olive, Laguna Beach, Balboa, Newport Beach, El Toro, Capistrano and Tustin.

COMMERCIALISM IS ROBBING BASEBALL OF POPULAR FAVOR

From all over the country, from minor leagues, have come complaints that attendance at baseball games this year has dwindled—dwindled—starting to those who are responsible for financing the game. There seems abundant evidence that the game is losing popular favor. The reason is not hard to find. Commercialism has crept in, and has divested the game of much of its charm for those who are keen for straightaway sports. It began by a sordid display of commercialism on the part of managers and magnates. Then the commercializing spirit infected the players. The result is, lack of homogeneity in baseball teams. Players are bought and sold, or barter themselves, right and left. They have made their playing utterly devoid of sentiment. The fans' mix considerable sentiment in their interest in the game. They want a team of stability—they want players who will stick with a team throughout the season. Then they can idolize the team and the individual players. But if an idol player is with the home team today and farms himself out to another team tomorrow, sentiment is knocked clear out of the game and the fans are disgusted.

Many Trunks Will Be Packed with

in the next two or three weeks by students starting away to school. Attention is called to our fine line of trunks at popular prices—\$5.50 to \$20. No better trunk values can be found anywhere. Horton-Spurgeon Furniture Company.

POLY FOOTBALL BEGINS TO PICK UP

Crimson and White Gridiron Ready for Work by Next Week

NEW UNIFORMS FOR PIGSKIN WARRIORS

Make-Up of Poly's First Team Still Uncertain; Many Names Suggested

Football stock down at Poly. High should begin to pick up. Manager "Dutch" miltzgraf expects to have the field ready for work for next week, which will give the boys a more even start with the other teams of the league.

It is proposed to fit the team out better than ever this year. New outfits will be gotten for the "regulars" and the old suits turned over to the "seconds." This will be the first time the second "string" men have not had to furnish their own outfits. This should bring out a lot of new men and make the fight for position on both teams hotter.

Games will be arranged with the second teams of Long Beach, Pasadena and other schools to give the Poly seconds something to fight for.

As to the make-up of the first team one guess is as good as another. That it will be a new team is certain. But three of last year's regulars—"Dutch," "Little Spud" and Burkett—will be available. Of the new-regulars there will be Catland, McClain, Jos Irvine, Geo. Paul, "Trabuco Mike" Robinson, estegate, Lee Brown and possibly a few others of last year's squad.

Of the new men "Bill" Wagner, center on the second team of two years ago, will make a fight for center if in school. Covington, the Biggs brothers, and a lot of others should be heard from. Some of last year's intermediate team will be in school and will make hard fights for positions.

Every rooter is anxious for the opening to see what new material will show up.

A conference meeting will be held in Los Angeles soon to decide questions of eligibility, officials, interpretation of rules, etc.

Over at the other high school football is the talk. Whittier High already has had a week of practice, San Diego the same, while Pasadena is getting busy, too. Coach Shutt at Chaffee Union has a squad of 50 working, with some of last year's men out for positions.

All this will make little difference though, except in the earliest games.

Among the colleges U. S. C. has had the jump in practice, but Occidental and Whittier, with their veteran teams, will be hard contenders. Just now it looks as though Whittier would be hard to beat with a back field stronger than last year and a line fifteen and twenty pounds heavier.

FORD CARS NUMEROUS IN RUSSIAN WARFARE

FORD, Ont., Sept. 17.—With all Russia united as never before in any war, the huge task of hurriedly mobilizing and moving her vast armies fell in no small measure on the Ford automobiles, if one may judge from the part this sturdy car played in the maneuvers held by the Czar's troops during the past year or two. In the sham conflicts, Fords were put to almost every conceivable use, and last season near Peterhof, the generals of the imperial staff were carried from point to point in eight Ford cars.

The armies have found that automobiles will go every place a horse has been asked to go. To some where horses cannot go, no matter what the clatter or how many bombs burst about them.

Many regiments have previously been equipped with Fords, while upon the declaring of war, entire stocks of autos at distributing points in the large cities were commandeered by the government forces.

Pleasure cars are being pressed into use for dispatching patrols and signal corps and such small bodies of troops as well as transporting the officers. Some are equipped for wireless service in the field, for hospital service and for carrying ammunition and various smaller munitions of war.

Two grand dukes and nineteen Russian princes own Fords. The president of the Duma, Prince Volkonsky, has three, and the secret police, palace guards, and government officials all use "the universal car."

Thirty-two per cent of all the cars in the entire empire are Fords.

Po-Do-Lax Banishes Pimples, Blotches, Freckles, Headaches, Biliousness, Torpid Liver, Constipation, etc., come from Indigestion. Take Po-Do-Lax, the pleasant and absolutely sure Laxative, and you won't suffer from a deranged stomach or other troubles. It will tone up the liver and purify the blood. Use it regularly and you will stay well, have clear complexion and steady nerves. Get a 50c bottle today. Money back if not satisfied. All Druggists—Advertisement.

ENLIGHTEN PUBLIC ON GREAT NEED OF GAME PROTECTION

The California Fish and Game Commission, believing that education as to the necessity and value of game protection and preservation is a more efficient means of conserving the state's game than police patrol, has inaugurated a bureau of research and publicity. Dr. Harold C. Bryant of the University of California has been placed in charge of the new work. The function of this bureau will be to find ways and means of protecting and preserving foreign and domestic game birds within the state and to dispense information relative to game by means of correspondence, public illustrated lectures, and by the issuance of bulletins dealing with the status of game. A study also will be made of the habits, habits and breeding seasons of the different game birds and mammals of the state so that a basis for same game laws may be afforded.

Laws and police measures, though necessary, are not so effective for the preservation of game as an enlightened public sentiment. This new move of the commission will hasten the day when a large force of wardens, making hundreds of arrests yearly, will be unnecessary.

P. E. TAYLOR.

HIKE TO TOP OF SANTIAGO IS POPULAR

An outing trip in this county which is rapidly growing in popularity is the jaunt to the top of Santiago Peak, commonly known as Saddleback. During last summer there were 146 names registered at the top of the peak.

One of the things which helped to make the trip popular was the Chamber of Commerce expedition which was taken early this summer. Those who went on this jaunt were unanimous in their praise of the outing to the top of the trail and by disseminating details of the pleasure to be derived from climbing the mountain the members of this party have succeeded in arousing a great deal of interest on the part of those who are looking for unusual and pleasant outings.

Ray Adkinson, who has been employed as a lookout by the federal government at the top of Santiago Peak, has given up his position to go to Occidental College. William Chesterfield of El Toro has taken Adkinson's place.

Dance at Moose Hall every Saturday evening commencing Sept. 19, 1914 under personal management of C. C. Fipps, Purcell Orchestra.

Country Club Talk

The largest crowd in the history of the Orange County Country Club visited the clubhouse and grounds last Sunday. This fact only goes to substantiate the statement that has been made in these columns several times of late that when it comes to being a tremendously popular adjunct to the social life of this county the club is far and away the leader of social organizations hereabout.

One indication of the great interest that is being awakened by the club is that more and more strangers, bearing cards from other Southern California clubs, are visiting the Orange County organization.

Eighteen automobiles were counted at the club last Saturday.

E. V. S. Pomeroy, upon whose shoulders have fallen the manifold tasks of acting as president pro tem, has already worn out one perfectly good automobile on the road between Santa Ana and the Country Club. It's tough luck for Pomeroy. However, the old auto was sacrificed in a good cause for the way in which Pomeroy is temporarily filling the vacancy left by President Charles Twist is commendable, to say the least. The most cautious member could not find fault with a single detail pertaining to the ordering of the club's affairs.

Tonight is seeing the inauguration of what will undoubtedly prove one of the most popular innovations at the club, a social hop. It takes no great seer to prophesy that these dances,

which it is intended to hold once every two weeks during the winter, will soon rival golf as a drawing card for the club's members.

Golf is an alluring pastime. Its intricacies and its bafflements have entranced many a good man and true. F. E. Farnsworth, of Huntington Beach, for instance, Farnsworth, than whom there never was a more successful real estate man, has given up his business entirely. The exciting uncertainty of engineering a big deal has lost all its fascination. Golf, the siren, has made its appeal. Farnsworth may be found on the course nearly every day. And his devotion to the pastime is showing results. Farnsworth is rapidly becoming one of the experts of the club.

Charles Kelley, when not engaged in welding a pestle, or mixing cherry phosphates or coca colas, spends his time solving the mysteries of golf. It is reported that he is one of the coming champs with a golf stick. In fact, so proficient has he become of late, that he intends shortly to act as instructor in golf for the lady members of the club. Dame Rumor, who has so many things, also has it that Kelley intends putting in a complete line of accessories near the club grounds consisting of talcum powder, face creams and other sunburn lotions. That this proposed move on the part of the genial Kelley will make a tremendous hit goes without saying.

Dr. Garland C. Ross, considering the short time that he has been striving to master the game, is making about the most rapid progress of any of the golfers. Saturday Dr. Ross made the course in 50. Sunday he went around four times, making the nine holes in 52, 54, 56 and 58.

"I'm going to play that Country Club course in 50 or die," said H. C. Connell, as he started out for the club grounds last Sunday.

In the automobile with "Hike" were George B. Shattuck, Frank Rensberg and Henry T. Rutherford.

Said Rensberg, "You might as well get ready to die then, because you'll never make those nine holes in 50."

Now, whether these two aforesaid remarks by these two aforesaid members of the club were dark with hidden ulterior motives is not known. At any rate, before the afternoon's play was over Hike was smitten with great force on the right cheekbone by a golf pellet which had been sent upon its nefarious way by a prod in the hands of Rensberg.

If the affair has been correctly reported, Hike was not making an exceptionally good score. In fact, he was at a considerable distance removed from his coveted 50 score—at least at the time when the accident happened.

Of course, there is a possibility that Rensberg, remembering the remark which Hike had made earlier in the day, and seeing that Hike was not likely to come anywhere near making a score of 50, decided to help out the subtle ways of Fate.

Rensberg squared away at his ball. Hike was standing at a distance of about 100 yards and was not watching Rensberg's preparations for a mighty swat. Frank let drive. The ball hit a hummock, rebounded and alighted for a brief though painful instant upon Hike's cheek. Hike stood perfectly still for at least a minute. So did the others. Perspiration that was not caused by the exertion of playing golf bedewed the pale brow of the discomfited Rensberg. Finally Hike showed signs of returning to this earthly sphere and the game was resumed. No casualties reported.

A Lame Back—Kidney Trouble Causes It

—It doesn't take long for kidney and bladder trouble to give you a lame back, and even worse if not checked. Mrs. H. T. Strayge, Gainesville, Ga., was fairly down on her back with kidney trouble and inflamed bladder. She says: "I took Foley Kidney Pills and now my back is stronger than in years, and kidney trouble and painful bladder sensation have entirely gone." Good druggists are glad to sell Foley Kidney Pills because they always help. They contain no habit-forming drugs. Winwood's Drug Store—Advertisement.

—Reduced rate excursions every Saturday to Yosemite. All necessary expenses 10 days, \$45.00, including Mariposa Big Trees, \$60.00. C. A. Wilcomb, agent, 606 South Spring street, Los Angeles.

PAIGE

Consider These Facts:

Since the announcement of the Paige "25" and "36" the Paige factory and Paige dealers, everywhere, have been flooded with orders and enquiries. An avalanche of successful and discriminating dealers have practically been compelled to seek Paige territory.

They, like the motor buying public, recognize and have endorsed the Paige as the greatest automobile value in the entire industry.

Consider what this means to you and to every prospective automobile buyer.

You can now purchase a car that you know has had the endorsement of both the buying public and the successful and discriminating motor car dealer.

You can now purchase a car that is acknowledged "the greatest automobile value in the entire industry."

You can now purchase a car and feel secure in the knowledge that you have bought more value for your money than was ever thought possible to put into a car and sell at the Paige price.

You can now purchase a car that has proven correct in design, in workmanship and in the quality of materials employed.

You can now purchase a car that has proven, in the hands of thousands and thousands of owners, equal to all and any conditions that you are ever likely to encounter.

You and every prospective motor car buyer have never before had this great and compelling advantage.

We urge you to call at our garage and see the new Paige.

We feel confident that you, like the others who have seen the new Paige, will at once recognize the many and extraordinary values the Paige offers.

NATIONAL FOREST FIRE DEPOT NOW PLANNED

Los Angeles Times: The frequency and extent of fires in the national forests of California, and the trouble caused supervisors in quickly assembling materials and tools necessary to successfully fight these large conflagrations, are about to result in the establishment in this city of a central depot of supplies, to be used in case of fires in the Santa Barbara, Cleveland or Angeles national forests.

When an alarm is given this material, consisting of complete cooking paraphernalia, axes, hooks, shovels and a thousand other items, will be quickly placed on big trucks and sent to the scene of the trouble. There are now four partial outfits in the Angeles Forest, in this city, San Bernardino, Pasadena and Sunland, but at neither the Cleveland or Santa Barbara national Forest has any preparation been made for the adequate handling of a fire. It has been estimated that with the proper organization it will be possible to get the proposed outfit to any accessible point within a very few hours after the alarm is given.

SEARCHLIGHT MADE HERE IS IN BIG DEMAND

The fame of Kaufman's Universal Searchlight for autos is spreading and orders from out of the county are now beginning to come in. Mr. Kaufman began the manufacture of the searchlight, of which he is the inventor, only a few months ago and in this short time has already got them on a goodly percentage of the cars in Orange county. His machine shop at 417 North Broadway is turning out searchlights to its present capacity and a ready sale is found for his output.

FIRM MAKES TWO GOOD AUTO SALES THIS WEEK

J. Gallemore, editor of the Fullerton News, has purchased a new 1915 Model 42 Oldsmobile through Santa Ana agents, C. E. Isaacson & Son. The above firm also report the sale of a 1915 Hudson light Six car to Dr. D. F. Royer of Orange.

SURF FISHING PARTY

In the expectation of having an old-fashioned "steak barbecue" Mr. and Mrs. Clifford Johnston, Miss Elva Bush, of Los Angeles, and Victor Walker, motored down to Corona del Mar this afternoon. That portion of the party's time not taken up in preparing and eating the delectable steaks will be taken up by surf fishing. The anglers will confine their fishing operations to a point about half-way between Corona del Mar and Laguna Beach.

NOTICE

To Orange County "Drys"

In order to vote November 3rd you must have been registered since January 1st, 1914.

Registration closes October 3rd. See that you are registered in the precinct in which you are now living. If you have moved to another precinct since registering, get a transfer from registration clerk or you cannot vote. If you know of any neighbors not registered notify your local registration clerk.

We appeal to all "drys" to spend every effort possible to assist in this important duty.

For any information inquire of your local "Dry" Federation officers or the County Federation, Rooms 12-14-15, Masonic Temple, Anaheim. ORANGE COUNTY DRY FEDERATION.

MARVELOUS ARRAY OF TALENT IN BARNUM AND BAILEY CIRCUS THIS YEAR

The Barnum & Bailey "Greatest Show on Earth" will exhibit here. The time-honored tradition has been to distinguish each successive year's circus as "bigger and better than ever before." The phrase has become so trite, however, that Barnum & Bailey hesitate to repeat it, despite their conviction that it adequately describes this season's entertainment. The familiar catch-line "The Greatest Show on Earth," has been lived up to far and away more generously than in any of the long years this amusement colossus has appeared in this city. Monotony, routine and repetition have been so completely eliminated that old-timers will rub their eyes in astonishment.

There's material enough to make a score of the circuses of recent years in this modern wonderland. Proving most overwhelmingly its continued supremacy, Barnum & Bailey contend is "The Wizard Prince of Arabia," a panoramic pageant whose magnitude and beauty have no like or equal in all the vast and varied history of spectacular presentations. Its stupendous scenic and property investiture, stage pictures, music, songs and great choruses are the proudest achieve-

ments in the Barnum & Bailey career; the prettiest, daintiest array of femininity ever assembled is disclosed, and the terpsichorean revels of the ballet belles provide a glorious iridescent eye-feast.

With this wonderful feature, the Barnum & Bailey circus offers an array of circus talent that is unequalled in modern circus history, there being 350 arctic performers.

Tangling and baseball elephants, acts of a death defying nature, novelties galore, startling equestrian features, arctic feats of strength, a mammoth zoo, and all for one price of admission.

POMONA IS READY FOR BIG FOOTBALL SEASON

Athletic Manager Hawley of Pomona College has returned to school to put things in shape for the coming football season.

"I know we are weak behind the line at present, but the boys at school are placing their dependence upon Coach Stanton," said Hawley today. "Stanton is the best developer of green men in the south and he may be able to astonish the critics."

SQUIBBLETS

HOMER RUMME

"Ray for athletics! Quietly, but none the less effectively, Santa Ana has been taking some tremendous steps in athletics during the last six or seven months. The coming fall and winter will see the biggest advance in local sports ever recorded. Santa Ana is growing and the wonderful interest that is awakening in all kinds of sports is strictly in keeping with the progress that is manifest in all lines of activity."

The football season at Poly looms larger than it ever has before simply because of the wonderful enthusiasm that students are already showing in the game. Tennis, basketball and baseball—all these sports will see a greater development this season than ever.

Semi-professional baseball is also coming into its own. More interest has been shown in local baseball this year than ever. True, there have been bigger crowds at ball games in this city than have been recorded since the Stags took the field last spring but, taking it all in all, the attendance at Moose Park has shown a better average at every game.

Amateur boxing is another line of athletic activity which is receiving a great share of attention locally. Some of the bouts held recently at the Athletic Club will compare favorably with those staged at boxing shows anywhere in the United States.

OLIVER DIX SAYS

The proposed match between Abe Attell and Johnny Kilbane for the featherweight championship looks a little like some more of the soft stuff that has recently been palmed off on the Southern California boxing fans. Attell, who has been out of the game for some time, has dropped to a poor second-rater and it is very doubtful whether he will be capable of making it interesting for Kilbane.

The Willie Beecher-Johnny Dundee match looks like a winner with the betting still near the even-money mark. Many are picking Beecher for the winner, but if he defeats the husky little Italian he will know that he has been in a fight.

The coming smoker and boxing show to be staged by the Athletic Club on September 30 looks like the real thing. With boys like Laster, Lee, Burns and Reed the fans are sure of a treat.

With the return of Jimmy Clabby to the United States the welterweight division should again be placed in the running. Why not have an elimination contest and find the real champion?

THREE MERCERS TO ENTER CORONA RACE

Three Mercers will be entered for the Corona road race. This announcement was made last night by George Bentel of the Bentel-Mackey Company, Pacific coast Mercer and Simplex agents. Eddie Pullen, the winner of the Grand Prize at Santa Monica, and Ruckstall, the Maricopa amateur, are to be two of the drivers. The identity of the third member of the team is being kept a secret. He has been selected, but Bentel declares nothing will be given out until a short time before the race.

The local agency will enter the cars, as the factory has announced its retirement from racing for the rest of the season. The next races entered by factory cars probably will be the Grand Prize and Vanderbilt contests in San Francisco next spring.

SLOGAN ADOPTED BY THE CHALMERS

Chalmers motor cars are being manufactured this season under the slogan, "Quality First." The expression has been adopted by the factory as its standard, and is incorporated in all advertising literature. The words always appear below the monogram.

The announcement last week of the reduction in the price of Chalmers cars as the result of the changes necessary in the export plans due to the European war has created a remarkable business impetus, according to Manager Headlee of the Chalmers-Los Angeles Company.

"Everybody knows the 1915 car was built to sell at an advanced price," he says, "and our advertising for weeks has been planned to show that this was necessary because of the improvements. To be able to buy a car for less than it was built to sell for is like finding a bargain in any line, and California people are showing their intention to profit by it."

"ROAD RUNNERS" ARE PREYING ON QUAIL

The hunters in District Number Five are very anxious that the valley bird known as the "Road Runner" be taken from the list of protected birds. They are certain from their experience of several years that the "Road Runner" is destroying the quail. They state that a few years ago it was possible to go out and in a short time secure the bag limit of quail, but that things have changed greatly and now they can account for this in no other way except through the theory that the "Road Runner" is preying upon them.

Stop That First Fall Cough
Check your fall cough or cold at once—don't wait—it may lead to serious lung trouble, weaken your vitality and develop a chronic lung ailment. Get a bottle of Dr. Bell's Pine-Tar-Honey today; it is pure and harmless—use it freely for that fall cough or cold. If baby or children are sick give it to them. It will relieve quickly and permanently. It soothes the irritated throat, lungs and air passages. Loosens phlegm, is antiseptic and fortifies the system against colds. It surely prevents cold germs from getting a hold. Guaranteed. Only 25c at your Druggist.—Advertisement.

Pile Up Your Money For a Rainy Day!

ONE of the queerest things about some people is that they will not follow GOOD ADVICE when they KNOW they OUGHT TO. Perhaps we are all more or less that way. All the wise men of all ages have urged their fellow beings to PUT AWAY SOMETHING for a RAINY DAY. Good old Benjamin Franklin's sayings on economy and saving alone ought to make a bank book holder of EVERY ONE. If you have DELAYED, suppose you act HONESTLY with YOURSELF RIGHT NOW.

FORD SALES & SERVICE CO.

"Wise Men buy Fords and put the Balance in the Bank."

Why Worko?

Because it is a great money saving product for all Gasoline Engines.

Carbonized Cylinders are the cause of many troubles in the motor.

WORKO removes the carbon—you can do the work with it and hardly soil your fingers. It is a small Tablet sold in boxes. To use it, remove a spark plug from each cylinder of your engine—all cylinders at once—put two tablets of WORKO in each cylinder and replace the plugs. That's all. The engine does the rest.

The heated cylinders cause WORKO to generate a gas which gradually disintegrates the carbon and blows it out through the muffler exhaust, leaving the pistons, cylinders, valves, spark plugs and exhaust passages as clean as the day they came from the factory.

The engine regains its vitality and responds to you like a thing of life.

It is the same with all gasoline engines. WORKO acts like a tonic after it has performed the services of a scavenger.

It is simple, easily used and it never fails.

Motorcyclists will also find WORKO available for their engines.

An Absolute Guarantee

Buy a box of WORKO and if it does not meet the claims made for it—come back and get your money.

GEORGE E. KELLOGG

8 CYLINDERS IN 'V'-FORM NEW ENGINE TYPE

Aeroplane Idea Adapted for
Construction of Motor for
the Automobile

Six months ago such a thing as an eight-cylinder motor was seldom mentioned, except in connection with aeroplanes, but of late eight-cylinder "V"-shaped motor talk has filled the air. If all the rumors are to be believed, many a high-class motor car manufacturer is working on an eight.

With the "V"-shape eight-cylinder engine the cylinders are set at an angle with one another, and not all in a row along the crank chamber. The engine thus presents the appearance of two separate four-cylinder engines.

Of course, the eight-cylinder engine is nothing particularly new in the aeronautical world. It is quite an "old stager" as some of the earliest aeroplane motors were of this type, such as the Antoinette, the E.N.V., the Walseley, the J.A.P.

An English engineer who has made a study of the "eight," points out its points in the following manner:

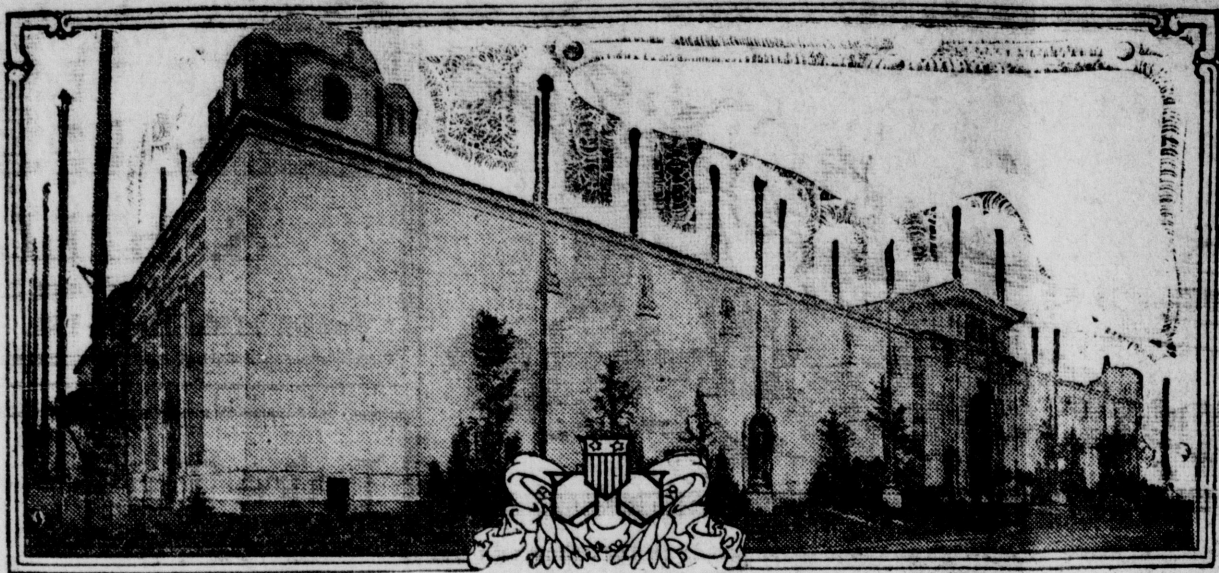

"Just as in the old days, and even at the present time, one always describes the excellence of the six-cylinder engine by comparing it with the four-cylinder, so we will now discuss the eight in terms of the six, over which it has several pronounced advantages.

Makes Short Motor

"In length, which is the only dimension that matters, within reasonable limits, on a motor car, the eight-cylinder is preferable by a matter of thirty per cent. The space available for body work upon the chassis, is therefore much greater, and this in itself is a point of importance. But of even more value still are the advantages which follow on the use of short engine. The crankshaft has all its throws in one plane, and is, therefore, cheaper to manufacture than the crankshaft of a six-cylinder engine, the throws of which lie in three planes, and each pair is at an angle of 120 degrees to the other.

"Again, the crankshaft being shorter possesses less torsional elasticity; therefore, periodic vibration is greatly reduced. In like manner the camshaft is shorter, and periodic vibrations arising from this source are also reduced. No great length of inlet piping is required, as the four V-shaped cylinders lend themselves readily to a piping arrangement

One of the Many Great Exhibit Palaces Now Completed For the Panama-Pacific International Exposition, San Francisco, 1915

Copyright, 1914, by Panama-Pacific International Exposition Co.

NORTH FAÇADE OF THE PALACE OF MINES AND METALLURGY; DIMENSIONS, 451 BY 579 FEET; COST, \$359,445. PANAMA-PACIFIC INTERNATIONAL EXPOSITION, SAN FRANCISCO, 1915.

which gives each cylinder practically an equal chance of getting a full charge of gas.

"Power for power, and allowing equal strength of material, the eight cylinder engine is lighter than the six, owing to the shorter crank-case, lighter crankshaft, lighter flywheel, shorter camshaft and higher reciprocating parts (the cylinders being smaller).

"The eight cylinder has a third better torque.

"Shorter oil passages and a smaller length of crankshaft are advantageous in this respect.

"In brief, the great advantages of the eight cylinder engine are its small size, light weight, excellent torque, perfect balance and good combustion."

LOCAL GARAGE WILL HANDLE HAYNES CARS THE COMING SEASON

R. L. Draper has secured the agency for the Haynes line of automobiles for the coming year and expects to receive his first cars within a couple of weeks. One of the leading models of the Haynes line this season is their light six, selling at \$1485. Mr. Draper will continue to handle the Lozier as heretofore.

LAGUNA AUTO STAGE

Peacock's Laguna stage leaves the White Cross Drug Store, Santa Ana, daily for Laguna Beach, at 10:15 a. m. and 4:15 p. m. 75c each way.

Condition of County Roads

Information given out by the highway commission this morning is to the effect that it will be at least a month before the highway between Santa Ana and Newport Beach is completed and open for travel for its entire distance.

A new route to the beaches has been posted. This route makes about four miles more of pavement available than was the case when the Fairview route was taken. The new route follows:

South on Bristol, thence south on Bristol to Sunflower avenue; west on Sunflower to the first road going south to its southerly terminal; thence easterly to Paularino.

Main street south from the city limits is closed. The road is closed tight for the entire distance to the end of the completed road.

Save for these changes in the county road situation there is no material difference from those announced in last week's Register.

The Bay City road for practically its entire length is closed; the best way to go to Long Beach is through Garden Grove. Follow the road leading due west out of Garden Grove.

Two routes are open to Los Angeles. Both are good. One is to go by the Orangethorpe road, and the other takes the boulevard through Fullerton.

There is no change in the Santa Ana Canyon road. Traveling is rough for several miles. Unless absolutely necessary to go through Santa Ana Canyon, Brea Canyon offers the best way to travel.

COLE OFFICIALS VISITING HERE

Mr. Edward F. Harris, Los Angeles Branch manager of the Cole Motor Car Company, and Mr. J. F. Morrison, general sales manager of the well known Indianapolis factory, are spending the day with Mr. P. W. Wisdom, of Wisdom & Company, local Cole representatives. Mr. Harris and Mr. Morrison are en route for San Diego on an inspection tour of Southern California Cole agencies. The trip is being made in a special Big Six cylinder Cole.

INTERESTING STORY TOLD BY 1915 AUTO

Some Family History Related
in Modest Manner by Proud
Offspring

The following is taken from a conversation which the writer overheard between two well-known automobiles in a large garage in one of the southern states. The reader must excuse the continued use of the ego—it is not egotism on the part of the automobile. "She" is simply stating facts about "herself," modestly, "her" middle name and "she" almost blushes when "she" says "I."

"Yes, I was born in Detroit. My parents were both American models, mother being a town car and father a racer; and, say, how he could cover the ground in his younger days. But he got old and when he finally got down to one lung, he had to take a back seat. Lots of young racers, though, try to follow pa's example today, but few of them have the speed he had. Mother is holding her own pretty well. Of course, she is getting a little gray, but she is just as strong as ever and goes into town and back twice a day without even a sigh. She never was driven very hard, though, and most always had women with her.

Pa Was a Bum
"Pa 'bumped' around with everybody and that's why he had to go to the hospital so much. He had the drink habit something awful. Why, he could drink more gasoline and 'carry it' than any car I ever saw.

"How many brothers and sisters have I? Why, say, our family has an addition about every five minutes, and I have so many brothers and sisters that I've lost all count. You see, our family is very popular. We don't stay together very long. We no more than see the light of day before somebody comes, falls in love with and takes us away; and that brings me to my own story.

"You see, I am a baby—a real 1915 baby, but just the same I have had a very wide experience for one so young. Believe me, I have been put to a hundred tests and can stand anything now. They wouldn't let us leave home if we weren't strong and healthy and able to do all kinds of work.

"One day not long after I came into existence, two men came up to me in our factory and stopped. They were arguing about me and I heard one man say to the other: 'I'll bet you a good hat that she can take you 1500 miles and you won't have to touch her.'

Pleased at Being Praised
"Of course, it pleased me to hear myself praised and I was not in the least scared when the other man replied: 'I'll take your bet and, besides, I won't carry a single tool—she's got to go all the way without an adjustment.'

"Well, to make a long story short, I made the trip—1500 miles in all, and over some of the worst roads I ever hope to see. I averaged about 35 miles to a gallon of gasoline on the good roads and, as I 'start myself,' my new owner never had to crank me once.

"People who have ridden in me say I'm the nicest riding car they ever saw, and they speak of my beautiful stream line body and, believe me, I am proud of myself and of my family.

"Who am I? Why, didn't I tell you my name? I beg your pardon—my name is Maxwell. I am one of the new 1915 touring cars, and now what will you have to drink—gasoline or just plain water?

"By the way, my Santa Ana home is at Veggie's Garage. Come around and see me any day."

FOUR CARS A DAY

There are but two logical methods of building motor cars.

One method is to produce cars in enormous quantities so as to bring the price down as low as possible.

The other method is to produce cars in limited quantities so that each car will be of the highest quality.

Each system has but one real exponent. In a middle western city, "mass production" enables a good small car to be made and sold at a low figure. In a New England city "The Best Built Car in America" is produced practically car by car, by the finest mechanics in the world.

One car carries out one ideal, the other a totally different ideal. Both are right. Both are built, not assembled. One company makes 1000 cars a day, the other company Four Cars a Day. The idea back of one car is to give the most for the money; the idea back of the other is to give the best, regardless of price.

The smaller car is turned out like the well-known and worth while "dollar watch." The greater car is built like a Chronometer. Any other car—is a compromise.

The Locomobile now occupies a peculiar position. It is the only high grade car whose sales have increased during the past two years. This success of the Locomobile is due to the policy of building not more than four cars a day. All of the power and the experience of the Locomobile organization has been concentrated on a limited production.

Years ago we concluded that just so surely as the best cheap car could only be produced in very large number, just so surely could the car of highest quality be produced only in limited quantities.

Our policy from the very start was to build cars in small lots so that each car could have the most intimate attention. When others were increasing their plants and building more cars, we were increasing our quality, striving to make the Locomobile "The Best Built Car in America."

Every Locomobile has been built like every other Locomobile. Every Locomobile has been built with the utmost care. Every Locomobile has been built to carry out the ideal of quality, not a commonplace commercial ideal. The Locomobile will be made as it always has been made, in limited quantity—and with unlimited care. (Despite the present demand for the Locomobile and despite rumor to the contrary, we will not increase our production and make more cars.)

There will always be a demand for the limited number of cars we make. Because we have been building for the future, our plant will always run at capacity, without reducing the quality of our product or price.

The Locomobile Company of America

Who Will Win?

There is only one way to judge the probabilities in the terrific European conflict of nations. Get your information and statistics from a reliable source. So much contradictory matter has already been published, that the average person is very much at sea regarding the true conditions as they really exist. You want to KNOW THE FACTS exactly as they are—the naval, army and aerial strength of each of the great powers involved in the big European war. Only then can you judge the possible outcome.

Everything About the WAR

The REGISTER'S latest European War Map gives you the exact facts—the number of men available for duty in army and navy, the classification of naval vessels and aerial craft. There is also a vast amount of valuable information about each country, national debts, population, previous decisive battles, etc. Besides this there are sixteen portraits of European rulers, maps of the leading European capitals and strategic naval points.

The Register's Big War Map

Presented to
every reader

Los Angeles Produce Market
The forecast of lower prices on pink beans, made in this column several days ago, came to pass yesterday when the market on that variety of product dropped to a quotation of \$5.25 on good stock, which was selling as high as \$5.60 last week. The arrival of pink beans from the new crop is the only reason for such a decline. Lima beans also took a decided header and are selling as low as \$7 a hundred. They dropped from \$8 to \$7.50 several days ago, and yesterday declined the other half dollar. They will begin to move in large quantities about the middle of October.

Colorado Jonathans were one of the features of yesterday's arrivals on the fruit market. The stock received was extra fancy and the price is fixed at \$2 on the largest pack, which easily puts this variety at the head of the apple list for figures. Receipts were also reported from Washington and Oregon of this same apple, and the market was quoted at \$1.75 on the best of these. California Jonathans are quoted at \$1.50, this lower price being possible largely on account of freight rates and not because of a difference in the quality of the fruit. Total apple receipts were 32,675 boxes, the record for any one day's arrivals this year.

There were no changes in the egg or butter market. Receipts were 203 cases of eggs and 46,780 pounds of butter. Cheese arrivals were 5510 pounds and trading in imported Swiss was featured to a noticeable extent. Domestic Swiss demand has increased very heavily since the curtailment of the shipments on that from abroad. Potato arrivals were 1270 sacks. Onion receipts were 337 sacks and the market continued weak.

The market on hogs is very firm and upward, this owing to the fact that there is a shortage in supply and also because of prevailing war conditions. Farmers are marketing their stock as rapidly as possible because of the higher prices in grain, which will make protracted feeding of market hogs and cattle a losing proposition for producers.

Improved Methods

AND APPLIANCES
enables the modern laundry to turn out old linen with all the crisp freshness of new. This laundry can do your linen far better than it can be done by hand and at less expense to you.

FOR SALE, WOOD—Eucalyptus, apricot and walnut, delivered. Prices reasonable. Inquire J. J. Van Wyk, 1109 French. Sunset 1

SILVERWOODS TO MEET MOOSE II ON SUNDAY

Attendance at Local Ball Yard is Growing Week by Week

The Silverwood club of Los Angeles meets the Moose club on the local grounds Sunday. These athletes were neatly trimmed when they were here before by a score of 6 to 2. With the diminutive Brown flinging delectable ball and the great majority of Deck's Stags massaging the missile in truly professional manner there is small doubt in the minds of the local fans but what the Los Angeles counter jumpers will again be cut out of winning a game.

Attendance at Moose Park, as the weather grows less hot, is increasing rapidly. It is predicted that before many weeks have passed the crowds at the Moose ball yard will have become sufficiently large to warrant Deck staging some games here that will savor of "big league" stuff.

It will be but a few short weeks before some of the big leaguers return to Santa Ana for the winter and at that time it is more than likely that Deck will put some really big stars in the ranks.

The lineup and batting order for both teams follows:

Moose—Duhart, ss; Freeman, 2b; Schultz, 3b; Callan, cf; Leake, 1b; Walters, lf; Woodward, c; Brown, p; Smith, rf.

Silverwoods—Cosby, lf; Garber, 1b; Vasquez, 2b; Haight, 3b, or p; Nielson, ss; McCrea, 3b, or p; Riggs, cf; Finley, c; Le Brecht, rf; J. Le Brecht, utility. Umpire, Jurgens.

Keeps Your Liver Healthily Active; Cleanses Your System Thoroughly

—A man in Kentucky just told a friend that Foley Cathartic Tablets were the most wonderful medicine that had ever entered his system. Said he would not be without them. Neither would you, if you had ever tried them for chronic constipation or for an occasional purge. Better for you than calomel. Keeps your liver active. Stout people can't find anything to equal them for comfort. Win-good's Drug Store.—Advertisement.

Large assortment of black eardrums, 50c and 75c at Padgham's. See window.

Connie Mack on Cigarettes

Connie Mack, manager of the Philadelphia Baseball Club of the American League, which holds the world's championship of 1910, '11, '13, and the American League pennants of 1902, 1905, says of the tobacco habit:

"There is very little cigarette smoking among our baseball boys. We do everything in our power to discourage the use of cigarettes, knowing the great harm that they have done to those who have been in the habit of using them. We find that those players who smoke never amount to a great deal in the profession, and I would say that this goes for all professions. It is my candid opinion, and I have watched very closely the last twelve years or more, that boys who begin smoking at the age of ten to fifteen do not as a rule amount to anything. They are unfitted in every way any kind of work where brains are needed. Players, for instance, who should otherwise have continued in the game until they were at the age of thirty or thirty-five, have had to be let out years before their time, as the poison of cigarettes getting into their system had unnerved and weakened them so that they were utterly unfit for the duty they had to perform.

"No boy or man can expect to succeed in this world to a high position and continue the use of cigarettes.

"After all, it is only a habit, and every one should have will power enough to overcome such a habit. There are many other ways that one can enjoy oneself without the ruin of health and this cannot be done if cigarette smoking is continued."

Governor Tener of Pennsylvania, now president of the National League, said of Mr. Mack and his world-champion club:

"His success is largely due to the fact that he can put in the field a team of nine men who have not tasted liquor. Of that wonderful infield of his, none ever tasted liquor, and but one ever used tobacco. Connie Mack's success is substantial; every move he makes is with a definite purpose."

Sporting Briefs of the Week

[By Hal Sheridan]

NEW YORK, Sept. 17.—The death knell of international sports—for a couple of seasons at least—has been sounded by the great war now raging in Europe. Not only will the countries of Europe not have any time for athletic engagements—their military ones coming first—but it is extremely unlikely that any of them will have enough first-class athletes when the war is over to assemble any kind of an athletic team.

The cream of Europe's athletes are practically all on the battlefields now. A great majority of those who helped to wrest many and diverse honors from Uncle Sam during the past year on the athletic field were at that time members of the armies in their respective countries. Those who did not belong to the army have joined since the war started, almost to a man. It is hardly likely, therefore, that all of these or even the biggest part of them will survive the great struggle. And it will take years before Europe—especially Great Britain—ever assembles such a crack quota of athletes as it hurled against the United States during the past year on fields of sport.

A little resume of what Johnny Bull did to your Uncle Sam wouldn't be out of place right now, since all international sport conflicts are off for the time being.

Scanning the past year we find that the two countries have clashed in seven big events. Out of those seven events our cousins from across the big pond pulled away with five victories, leaving Uncle Sam two.

Figuring it out on the percentage basis it has been a pretty bum year for American athletes. Their two wins as against five defeats gives them a percentage of 28.6, and even a tail-end club in a baseball league would sneer at that. John Bull's percentage would be 71.4—some mark as marks go. It seems like only yesterday—it was last year, in fact—that we were concocting many a pun about the athletic ability of our relatives in the British isles. They weren't winning many conflicts in those days. And then it happened!

At relay racing, golf, polo, boxing and tennis, Uncle Sam's athletic representatives got such a licking as they never had had in the history of international sports. They had no alibi to offer. They were trained to the minute in every case and were beaten simply because they met better men. Four of the seven events were staged on this side of the water, so that the "away from home" stuff wouldn't go, either. Four times England invaded America and out of those four trips she carried away four trophies. The U. S. boys visited England twice and broke down even. Young Jay Gould and the Harvard second crew saved us from complete defeat annihilation

WAR on Tailoring High Prices

ANOTHER SENSATIONAL OFFER!

Friday and Saturday Sept. 18 and 19

Choice of any suit in the store tailored to your measure . . .

The Real Tailor 209 W. 4th St.

Ride an INDIAN Motorcycle

The school season is about to begin. If your sons must come into the city or go a long ways to school, don't overlook the economical, comfortable, time-saving Indian. It will travel at least sixty miles to a gallon of gas, and over a hundred to a quart of oil. It has the only spring frame which will eliminate all the sharp road shocks and which, combined with the refreshing morning air will bring your sons to school in prime condition both physically and mentally. And it will save you valuable hours of time. Instead of using an hour or more to ride a bicycle or drive a horse to school, fifteen or twenty minutes will be sufficient.

If you have any desire for a demonstration, I'll be glad to call and show you more of the desirability of the Indian for this purpose. Write or call

—Gould at court tennis.

The next few years should see America improving all along the line. Uncle Sam's athletes probably would have wrested back a great many of the lost laurels even had Europe's ranks not been devastated by war. Young stars are fast cropping up and the future for U. S. athletics is unusually bright.

It will be many a year, in all likelihood, before such a race as is being

"TIZ" FOR ACHING, SORE, TIRED FEET

Good-bye sore feet, burning feet, swollen feet, sweaty feet, smelling feet, tired feet.

Good-bye corns, callouses, bunions and raw spots. No more shoe tightness, no more limping with pain or drawing up your face in agony.

"TIZ" is magical, acts right off. "TIZ" draws out all the poisonous exudations which puff up the feet. Use "TIZ" and forget your foot misery. Ah! how comfortable your feet feel. Get a 25 cent box of "TIZ" now at any drugstore or department store. Don't suffer. Have good feet, glad feet, feet that never swell, never hurt, never get tired. A year's foot comfort guaranteed or money refunded.

staged in the National League this season will be duplicated. The teams are now in the stretch, there being only two weeks more to go and as yet picking the winner is a precarious occupation.

There is no doubt but what Manager John McGraw, of the Giants, played a trump card when he annexed Marty O'Toole, of \$22,500 fame, from the Pirates. With the latter club, this red-topped spitball artist was a failure—due to a great many things. With the Giants he is more than apt to prove one of the best pitchers the game has ever seen.

That old reserve strength tells the tale. Without it no winner can go over—be it horse, man or machine. This was never better illustrated than in the hot race in the National League. The Giants and Braves have that thing called reserve strength—that something to fall back upon when a tight place is reached. In the case of the Giants Christy Mathewson is largely the team's reserve strength. In times of need McGraw always calls upon the Old Master to save him and it is seldom that the great pitcher doesn't come through with the winning colors.

At Boston George Stallings constitutes most of the reserve strength. No matter how blue the outlook, the Braves' fighting manager is urging his players on to their limit and then some. He never quits and will not tolerate on his club a player who will ever say beaten until the last man is out.

The St. Louis Cardinals have made a great showing this year and the Mound City fans cried for a pennant. But the reserve strength wasn't there and when they hit the tight places the team blew up. There was nothing to fall back upon.

School Days Are Near--

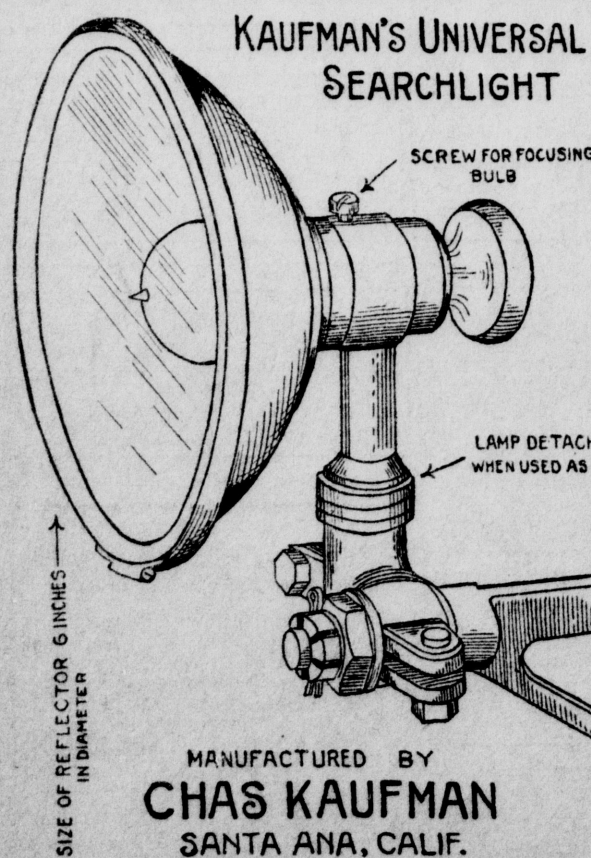

Now is a good time to have your old wheel repaired and put in good order. No matter how badly damaged your old wheel may be, bring us the pieces and we will make it run as good as ever.

For Sale--25 Second-hand bicycles for boys and girls at \$7.00 up

These wheels are all in good condition and are just the thing to ride to school.
